(3) Iemand wat onmiddellik voor die inwerkingtreding van hierdie Wet in diens was ingevolge aanstelling kragtens subartikel (2) van artikel vyf van die „Besproeiings- en Waterbewarings Wet, 1912” (Wet No. 8 van 1912), kan, ondanks die herroeping van daardie Wet deur artikel honderd een-en-tagtig van hierdie Wet, aldus in diens gehou word asof hierdie Wet nie aangeneem was nie.

HOOFSTUK II.

BEHEER EN GEBRUIK VAN PRIVATE EN OPENBARE WATER.

Beskerming van sekere regte.

4. (1) Die bepalings van hierdie Wet, behalwe artikel twee-en-sestig, word nie so uitgelê nie dat dit 'n uitwerking het op of afbreuk doen aan—

- (a) 'n reg op water wat by die inwerkingtreding van hierdie Wet deur enigiemand wettig verkry is, besit word en voordelig uitgeoefen word;
- (b) 'n reg op water wat voor die inwerkingtreding van hierdie Wet wettiglik deur enigiemand verkry is ten einde water aan die publiek te voorsien, en wat by bedoelde inwerkingtreding bestaan; of
- (c) 'n reg op water of op die gebruik van water aan enigiemand verleen of aan enige stuk grond verbonde uit hoofde van 'n private of spesiale wet wat nie uitdruklik deur hierdie Wet herroep of gewysig word nie.

(2) Die bepalings van hierdie Wet word nie so uitgelê dat dit op regte, bevoegdhede, pligte of werksaamhede ingevolge een of ander wet aan die Randwaterraad verleen, opgedra of toegewys, enige uitwerking het of daaraan afbreuk doen nie.

Gebruik van private water.

5. Behoudens wettig verkreë regte wat by die inwerkingtreding van hierdie Wet bestaan, berus die enigste, uitsluitlike en onbepaalde reg van gebruik en genot van private water by die eienaar van die grond waarop daardie water aangetref word: Met dien verstande dat die bepalings van hierdie artikel nie so uitgelê word nie dat dit afbreuk doen aan die reg van 'n eienaar van grond op 'n redelike aandeel in water wat op die grond van 'n hoër geleë eienaar ontspring, in 'n bekende en bepaalde bedding vloei op, of langs die grens van, grond geleë onderkant die grond waarop daardie water ontspring, en vir 'n tydperk van minstens dertig jaar deur die eienaar van die aldus geleë grond voordelig gebruik is.

Eiendomsreg op openbare en private water.

6. (1) Daar is geen eiendomsreg op openbare water nie en die beheer en gebruik daarvan word gereël soos in hierdie Wet bepaal.

(2) Wanneer 'n oewereienaar deur kunsmatige middels op sy eie grond 'n voorraad water verkry wat nie uit 'n openbare stroom afkomstig is nie, word daardie water geag private water te wees.

(3) Bedoelde eienaar is nie geregtig om 'n aandeel van enige water waartoe hy andersins ingevolge artikel nege of tien geregtig sou gewees het, te eis nie, solank die waterhof van oordeel is dat die aldus verkreë voorraad water van so 'n omvang is en op so 'n wyse deur bedoelde eienaar aangewend kan word dat die gebruik deur hom van water uit 'n openbare stroom waaraan sy grond oewergrond is, op verkwisting sou neerkom.

Gebruik van openbare water deur gemagtigde persone vir sekere doeleindes.

7. Ondanks enigiets in hierdie Wet vervat—

- (a) kan enigiemand terwyl hy hom wettiglik op 'n plek bevind waar hy tot 'n openbare stroom toegang het, water uit daardie stroom neem vir onmiddellike gebruik aldaar om sy vee te laat suip, om te drink of te was of vir kookdoeleindes of om in 'n voertuig te gebruik;
- (b) kan 'n amptenaar of dienaar van 'n provinsiale administrasie, afdelingsraad of ander by wet ingestelde liggaam wat vir die aanleg, instandhouding, herstel of beheer van 'n pad (uitgesonderd 'n pad binne die regsgebied van 'n munisipale of ander soortgelyke instelling) verantwoordelik is, terwyl hy hom wettiglik op 'n plek bevind waar hy tot 'n openbare stroom toegang het, soveel van die water uit daardie stroom neem en gebruik as wat nodig mag wees vir die aanleg, instandhouding, herstel of beheer van bedoelde pad, mits 'n oewereienaar langs die loop van daardie stroom nie daardeur van water uit daardie stroom vir sy eie gebruik vir die besproeiing van grond wat dan onder besproeiing is of vir huishoudelike doeleindes of om sy vee te laat suip, ontroof word nie.

(3) Any person who immediately prior to the commencement of this Act was employed by virtue of appointment under subsection (2) of section *five* of the Irrigation and Conservation of Waters Act, 1912 (Act No. 8 of 1912), may, notwithstanding the repeal of that Act by section *one hundred and eighty-one* of this Act, continue to be so employed as if this Act had not been passed.

CHAPTER II.

CONTROL AND USE OF PRIVATE AND PUBLIC WATER.

4. (1) The provisions of this Act, except section *sixty-two*, shall not be construed as affecting or derogating from— Saving of certain rights.

- (a) any right to water which at the commencement of this Act has been lawfully acquired, is possessed and is being beneficially exercised by any person;
- (b) any right to water lawfully acquired by any person before the commencement of this Act for the purpose of supplying water to the public and existing at such commencement; or
- (c) any right to water or to the use of water conferred upon any person or attaching to any piece of land by virtue of any private or special law not specifically repealed or amended by this Act.

(2) Nothing in this Act contained shall be construed as affecting or derogating from any rights, powers, duties or functions vested in, conferred upon or assigned to the Rand Water Board under any law.

5. Subject to rights lawfully acquired and existing at the commencement of this Act, the sole, exclusive and unlimited use and enjoyment of private water belongs to the owner of the land on which such water is found: Provided that nothing in this section contained shall be construed as derogating from the right of an owner of land to a reasonable share of water which, rising on the land of an upper owner, flows in a known and defined channel on, or along the boundary of, land situated beyond that upon which such water rises, and has for a period of not less than thirty years been beneficially used by the owner of the land so situated. Use of private water.

6. (1) There shall be no right of property in public water and the control and use thereof shall be regulated as provided in this Act. Ownership of public and private water.

(2) Whenever a riparian owner obtains, by artificial means on his own land, a supply of water which is not derived from a public stream, such water shall be deemed to be private water.

(3) The said owner shall not be entitled to claim a share of any water to which he would otherwise have been entitled in accordance with section *nine* or *ten*, so long as the water court is of the opinion that the supply of water so created is of such volume and can be so utilized by such owner that the use by him of water from a public stream to which his land is riparian would be a wasteful use.

7. Notwithstanding anything contained in this Act— Use of public water by authorized persons for certain purposes.

- (a) any person may, while he is lawfully at any place where he has access to a public stream, take and use water from such stream for the immediate purpose of watering stock or drinking, washing or cooking, or use in a vehicle at that place;

- (b) any officer or servant of a provincial administration, divisional council or other lawfully constituted body which is responsible for the construction, maintenance, repair or control of any road (other than a road within the area of jurisdiction of any municipal or other like institution) may, while he is lawfully at any place where he has access to a public stream, take and use so much of the water from such stream as may be necessary for the purpose of constructing, maintaining, repairing or controlling such road, provided no riparian owner along the course of such stream is thereby deprived of water from such stream for his own use for the irrigation of land which is then under irrigation or for domestic purposes or for the watering of his stock.

Regte op openbare water ten opsigte van onderverdelings van grond.

8. (1) Die eienaar van 'n onderverdeling van grond in die omskrywing van „oewergrond” in artikel *een* bedoel, is geregtig op so 'n aandeel in die water van 'n openbare stroom waarop die eienaar van die oorspronklike stuk grond waarvan daardie onderverdeling deel uitgemaak het, onmiddellik voor die onderverdeling van sodanige grond geregtig was, as wat by ooreenkoms tussen die betrokke eienaars bepaal of deur 'n waterhof toegewys mag word, selfs al vloe daardie openbare stroom nie op of langs die grens van bedoelde onderverdeling nie, behalwe waar die reg op so 'n aandeel by ooreenkoms, bevel van 'n bevoegde hof of op ander wettige wyse uitgesluit is.

(2) Die bepalings van hierdie artikel het nie die uitwerking om 'n onderverdeling van grond wat by die inwerkingtreding van hierdie Wet onder afsonderlike titelbewys besit was, maar by bedoelde inwerkingtreding nie oewergrond aan 'n openbare stroom was nie, tot oewergrond aan daardie stroom te maak nie.

Gebruik van normale stroming van openbare stroom.

9. (1) Behoudens die bepalings van hierdie Wet, en enige bestaande reg, is elke oewereienaar geregtig op redelike gebruik van so 'n deel as wat hy wettiglik van iemand anders mag verkry het en van sy deel (soos ingevolge artikel *twee-en-veertig* bepaal) van die normale stroming van 'n openbare stroom met betrekking waartoe sy grond oewergrond is, vir gebruik vir landbou- en stedelike doeleindes op daardie grond: Met dien verstande dat—

(a) 'n oewereienaar bedoelde water nie mag verkwis of enige gedeelte daarvan op onredelike wyse mag behou of toelaat dat dit in onredelike hoeveelhede tot nadeel van laer eienaars affloop nie;

(b) 'n oewereienaar wat 'n gedeelte van bedoelde normale stroming vir landbou-doeleindes aanwend, sodanige water op sy eie grond, indien dit doenlik is, of anders by die naaste gerieflike plek elders moet laat terugvloei na die openbare stroom waaruit dit geneem is met geen ander verlies as wat deur sodanige aanwending veroorsaak is nie, tensy hy wetlik verplig is om die water na ander grond te laat vloei;

(c) 'n oewereienaar nie 'n gedeelte van bedoelde normale stroming vir die besproeiing van grond mag gebruik nie, indien hy daardeur 'n laer oewereienaar wat op die gebruik van bedoelde normale stroming geregtig is, uitgesonderd 'n inwoner van 'n gebied binne die regsgebied van 'n plaaslike bestuur aan wie deur daardie plaaslike bestuur water verskaf word, van water vir huishoudelike gebruik of as suiping vir vee ontroof;

(d) 'n laer oewereienaar in paragraaf (c) bedoel in sy benodigdhede vir huishoudelike doeleindes en suiping vir sy vee moet voorsien uit soveel van die normale stroming as wat hy geregtig is om vir landbou-doeleindes te gebruik, voordat hy vir sy huishoudelike gebruik of as suiping vir sy vee kan eis dat enige ander oewereienaar enige deel moet afstaan van die aandeel van die normale stroming wat laasgenoemde eienaar geregtig is om vir landbou-doeleindes aan te wend;

(e) behoudens die bepalings van hierdie Wet, en enige bestaande reg, die eienaars van oewergrond aan 'n takstroom van 'n openbare stroom 'n voorkeurreg het op die gebruik van soveel van die normale stroming van daardie takstroom as wat hulle vir een of ander voormelde doel nodig mag hê, teenoor enige ander eienaar se reg om die normale stroming van daardie takstroom vir sodanige doeleindes te gebruik op grond wat oewergrond daaraan is bloot uit hoofde daarvan dat dit oewergrond is aan die hoofstroom waarin daardie takstroom vloei.

(2) (a) Die verwysing na opgaring in die omskrywing van „normale stroming” in artikel *een*, word nie geag 'n verwysing in te sluit na die opdamming van die aandeel van die normale stroming van 'n openbare stroom waarop 'n oewereienaar uit hoofde van 'n wettige verdeling van sodanige normale stroming geregtig is of mag word nie, en 'n oewereienaar wat uit hoofde van so 'n wettige verdeling van sodanige normale stroming 'n reg het om 'n gedeelte van die normale stroming van 'n openbare stroom te gebruik, kan daardie gedeelte opdam en opgaar in enige reservoir wat hy wettiglik vir die opdamming en opgaring van surpluswater waartoe hy ingevolge sub-artikel (1) van artikel *tien* geregtig is, in die bedding van bedoelde openbare stroom gebou het.

8. (1) The owner of any sub-division of land referred to in the definition of "riparian land" in section *one* is entitled to such share of the water of a public stream to which the owner of the original piece of land of which such sub-division formed a part was entitled immediately prior to the sub-division of such land, as may be agreed upon by the owners concerned or apportioned by the water court, even if that public stream does not flow on or along the boundary of such sub-division, except where the right to such share has been excluded by agreement, order of a competent court or other lawful means.

Rights to public water in respect of sub-divisions of land.

(2) Nothing contained in this section shall be construed as rendering riparian to a public stream any sub-division of land held under separate title at the commencement of this Act, but not riparian to that stream at such commencement.

9. (1) Subject to the provisions of this Act, and to any existing right, every riparian owner is entitled to the reasonable use of such share as may have been lawfully acquired by him from any other person and of his share (as determined under section *fifty-two*) of the normal flow of a public stream to which his land is riparian for use for agricultural and urban purposes on such land: Provided that—

Use of normal flow of a public stream.

- (a) a riparian owner shall not use such water wastefully or detain any portion thereof unreasonably or allow it to run off in unreasonable quantities to the detriment of lower owners;
 - (b) a riparian owner who uses any portion of such normal flow for agricultural purposes shall on his own land, if practicable, or otherwise at the nearest convenient point elsewhere, return such water to the public stream from which it was abstracted with no other loss than that which has been occasioned by such use, unless he is legally obliged to pass the water on to other land;
 - (c) a riparian owner shall not use any portion of such normal flow for the irrigation of land if thereby he deprives any lower riparian owner having a right to the use of such normal flow, other than an inhabitant within the area of jurisdiction of a local authority who is being supplied with water by that local authority, of water for domestic purposes or the watering of stock;
 - (d) a lower riparian owner referred to in paragraph (c) shall satisfy his needs as to domestic use and the watering of his stock out of so much of the normal flow as he is entitled to use for agricultural purposes before he shall be entitled to demand, for the purposes of his domestic use or the watering of his stock, that any other riparian owner shall abate any of the share of the normal flow such last-mentioned owner is entitled to use for agricultural purposes;
 - (e) subject to the provisions of this Act, and to any existing right, the owners of land riparian to a tributary to a public stream shall be entitled to so much of the normal flow of such tributary as they may require for any of the aforesaid uses in preference to any right of any other owner to the normal flow of such tributary for such uses on land which is riparian thereto only by virtue of its being riparian to the main stream into which the said tributary flows.
- (2) (a) The reference to storage in the definition of "normal flow" in section *one* shall not be deemed to include a reference to the impoundment of such share of the normal flow of a public stream as a riparian owner is or may become entitled to by virtue of a lawful distribution of such normal flow, and a riparian owner having a right to the use of a portion of the normal flow of a public stream by virtue of such a lawful distribution of such normal flow, may impound and store such portion in any reservoir which he has lawfully constructed in the channel of such public stream for the impoundment and storage of surplus water to which he is entitled in terms of sub-section (1) of section *ten*.

- (b) 'n Oewereienaar wat nie so 'n reservoir gebou het nie, mag nie, behalwe ingevolge vergunning kragtens sub-paragraaf (i) van paragraaf (b) van sub-artikel (2) van artikel *elf* verleen, die betrokke gedeelte in die bedding van 'n openbare stroom opdam en opgaar nie, maar kan daardie gedeelte opdam en opgaar in enige reservoir wettiglik deur hom buite die bedding van bedoelde stroom gebou.

Gebruik van
surpluswater van
'n openbare
stroom.

10. (1) Behoudens die bepalings van hierdie Wet, en enige bestaande reg, is elke oewereienaar geregtig op die gebruik van soveel van die surpluswater van 'n openbare stroom waaraan sy grond oewergrond is as wat hy vir huishoudelike doeleindes, as suiping vir sy vee, en vir landbou- en stedelike doeleindes voordelig kan gebruik, en kan hy bedoelde surpluswater vir daardie doeleindes opdam en opgaar.

(2) 'n Oewereienaar in sub-artikel (1) bedoel, is nie verplig om sy gebruik van enige gedeelte van bedoelde surpluswater waarop hy ingevolge daardie sub-artikel geregtig is, ten gunste van 'n laer oewereienaar vir daardie eienaar se huishoudelike gebruik of as suiping vir sy vee of vir landbou- of stedelike doeleindes in te kort nie, indien so 'n laer eienaar nie uit hoofde van ooreenkoms op die gebruik van daardie water vir sodanige doeleindes geregtig is nie.

Gebruik van
openbare water
deur sekere

toestemming van
waterhof.

11. (1) (a) Behalwe vir sover in sub-artikel (3) van artikel *ses-en-vyftig* en artikel *sewe-en-sestig* bepaal, mag niemand, behalwe met vergunning van 'n waterhof, en, waar die hoeveelheid gebruik sestigduisend gellings op enige dag of gemiddeld vyftigduisend gellings per dag gedurende enige maand te bowe gaan, kragtens 'n permit van die Minister, openbare water vir nywerheidsdoeleindes gebruik nie: Met dien verstande dat vergunning van die waterhof nie nodig is nie in die geval van 'n plaaslike bestuur of 'n ander volgens wet ingestelde liggaam wat die reg het om of openbare of private water binne sy behoorlik bepaalde regsgebied te beheer en te voorsien, of in die geval van iemand aan wie bedoelde water deur so 'n plaaslike bestuur of ander liggaam voorsien word: Met dien verstande voorts dat, behoudens die bepalings van artikel *nege*, iemand wat geregtig is of 'n reg verkry het om openbare water vir landboudoeleindes te gebruik, sonder vergunning van die waterhof, kragtens 'n permit van die Minister, en onderworpe aan sodanige voorwaardes as wat hy goedvind om op te lê, water kan gebruik vir die ontwikkeling van krag wat vyftien perdekrag nie te bowe gaan nie.

(b) Nòg die vergunning van 'n waterhof nòg 'n permit van die Minister is nodig ten opsigte van die gebruik deur enige persoon in verband met een of ander onderneming van 'n hoeveelheid openbare water wat nie gedurende enige maand die gemiddelde hoeveelheid per maand van sodanige water te bowe gaan nie wat wettiglik in verband met daardie onderneming deur hom gebruik is gedurende die laaste tydperk van ses maande binne die tydperk van twaalf maande onmiddellik voor die inwerking-treding van hierdie Wet waarin hy aldus water gebruik het, en die vergunning van die waterhof is ook nie nodig nie ten opsigte van die gebruik deur enige persoon in verband met enige onderneming, van 'n hoeveelheid openbare water wat hy uit hoofde van 'n bevel wat voor die inwerking-treding van hierdie Wet ingevolge 'n hierby herroepe wet deur 'n waterhof toegestaan is, gemagtig is om te gebruik.

(2) 'n Waterhof kan op aansoek van 'n persoon (met inbegrip van die Regering, die Suid-Afrikaanse Spoorweg- en Hawensadministrasie en 'n provinsiale administrasie)—

(a) wat ingevolge hierdie Wet geregtig is om openbare water vir landboudoeleindes te gebruik of wat 'n reg verkry het om bedoelde water te gebruik, aan die applikant magtiging verleen om die aandeel in bedoelde water waartoe hy aldus geregtig is of tot die gebruik waarvan hy so 'n reg verkry het, of enige gedeelte van daardie aandeel, vir landbou-, nywerheids- of stedelike doeleindes of die ander doeleindes wat die waterhof mag bepaal, en of op oewergrond of elders te gebruik;

(b) wat nie 'n reg op die gebruik van openbare water het nie—

- (b) A riparian owner who has not constructed such a reservoir, shall not, except in pursuance of permission granted under sub-paragraph (i) of paragraph (b) of sub-section (2) of section *eleven*, impound and store the portion in question in the channel of a public stream, but may impound and store that portion in any reservoir lawfully constructed by him outside the channel of such stream.

10. (1) Subject to the provisions of this Act, and to any existing right, every riparian owner is entitled to the use of so much of the surplus water of a public stream to which his land is riparian as he can beneficially use for domestic purposes, for the watering of his stock, and for agricultural and urban purposes, and to impound and store such surplus water for those purposes.

Use of surplus water of a public stream.

(2) A riparian owner referred to in sub-section (1) shall not be compelled to curtail his use of any portion of the said surplus water to which he is entitled in terms of the said sub-section in favour of a lower riparian owner for such owner's domestic use or the watering of his stock or for agricultural or urban purposes, if such lower owner is not in terms of any agreement entitled to the use of such water for such purposes.

11. (1) (a) Save as is provided in sub-section (3) of section *fifty-six* and section *sixty-seven*, no person shall use public water for industrial purposes except with the permission of a water court and, where the quantity used exceeds sixty thousand gallons on any one day or fifty thousand gallons on an average per day during any month, under permit from the Minister: Provided that the permission of the water court shall not be required in the case of a local authority or any other body constituted under any law which has the right to control and supply either private or public water within its duly constituted area of jurisdiction, or in the case of any person to whom such water is supplied by such a local authority or other body: Provided further that, subject to the provisions of section *nine*, a person who is entitled or has acquired a right to use public water for agricultural purposes may, under permit from the Minister, and subject to such conditions as he may deem fit to impose, use water for the development of power not exceeding fifteen horse power, without the permission of the water court.

Use of public water by certain persons subject to permission of water court.

- (b) Neither the permission of a water court nor a permit from the Minister shall be required in respect of the use by any person in connection with any undertaking of a quantity of public water not exceeding during any month the average quantity per month of such water lawfully used by him in connection with that undertaking during the last period of six months within the period of twelve months immediately preceding the commencement of this Act during which water was so used by him, nor shall the permission of a water court be required for the use by any person in connection with any undertaking of a quantity of public water which he has been authorized to use by order granted by a water court prior to the commencement of this Act under any law hereby repealed.

(2) A water court may on the application of a person (including the Government, the South African Railways and Harbours Administration and any provincial administration)—

- (a) who is entitled in terms of this Act to use public water for agricultural purposes or who has acquired a right to the use of such water, authorize the applicant to use the share of such water to which he is so entitled or to the use of which he has acquired such a right, or any part of such share, for agricultural, industrial or urban purposes or such other purposes as the water court may determine, either on riparian land or elsewhere;
- (b) who is not entitled to use public water—

- (i) indien die waterhof van oordeel is dat die verlening van so 'n vergunning in die openbare belang sal wees, aan die applikant vergunning verleen om 'n vermelde hoeveelheid openbare water, hetsy surpluswater of normale stroming van 'n openbare stroom, vir gebruik vir landbou-, stedelike of nywerheidsdoeleindes of die ander doeleindes wat die waterhof bepaal, hetsy op oewergrond aan daardie openbare stroom of elders, uit bedoelde stroom te neem of binne of buite die bedding van bedoelde stroom op te dam en op te gaar, en uit te neem;
- (ii) indien die waterhof oortuig is dat gedurende enige tydperk al die water van 'n openbare stroom, hetsy normale stroming of surpluswater, nie op grond wat oewergrond is aan elke stroom waarin of waarheen daardie water natuurlikerwys vloei, gebruik word of sal word nie, aan die applikant vergunning verleen om soveel water uit bedoelde stroom as wat volgens die waterhof se oordeel nie aldus gebruik word of sal word nie, vir landbou-, nywerheids- of stedelike doeleindes, hetsy op oewergrond binne die opvanggebied van daardie stroom of elders, te neem of buite die bedding van daardie stroom op te dam en op te gaar en gedurende bedoelde tydperk uit te neem.

(3) 'n Waterhof oorweeg nie 'n aansoek om vergunning vir die gebruik vir nywerheidsdoeleindes van 'n hoeveelheid water wat sestigduisend gellings op enige dag of gemiddeld vyftigduisend gellings per dag gedurende enige maand, te bowe gaan nie, tensy die aansoek van 'n permit kragtens sub-artikel (5) van artikel *twaalf* deur die Minister uitgereik, vergesel gaan.

(4) Voordat hy 'n vergunning ingevolge sub-paragraaf (i) van paragraaf (b) van sub-artikel (2) verleen, moet die waterhof vasstel op watter wyse en in watter mate die regte van die persone of enigeen of meer van die persone wat op die gebruik van water uit die betrokke stroom geregtig is, ingekort moet word ten einde die water ten opsigte waarvan die vergunning verleen staan te word, beskikbaar te stel: Met dien verstande dat—

- (a) so 'n inkorting sover doenlik in die eerste plek moet geskied ten opsigte van die regte van persone wat bedoelde regte nie uitgeoefen het nie;
- (b) regte op die water van die betrokke openbare stroom wat uit hoofde van 'n statuut, wat nie uitdruklik deur hierdie Wet herroep of gewysig word nie, aan enigiemand toekom, nie aan inkorting onderhewig is nie;
- (c) die regte van 'n oewereienaar op die gebruik van die normale stroming van so 'n stroom vir huishoudelike doeleindes en as suiping vir sy vee, nie sonder sy skriftelike toestemming aldus ingekort of andersins nadelig getref mag word nie.

(5) 'n Vergunning kragtens sub-paragraaf (ii) van paragraaf (b) van sub-artikel (2) kan permanent of vir so 'n tydperk as wat die waterhof bepaal, verleen word.

(6) Die waterhof kan—

- (a) ten opsigte van 'n vergunning kragtens paragraaf (a) of sub-paragraaf (ii) van paragraaf (b) van sub-artikel (2) verleen, die voorwaardes oplê wat volgens sy oordeel sal verhoed dat laer oewereienaars nadelig getref word; en
- (b) ten opsigte van 'n vergunning kragtens sub-paragraaf (i) van paragraaf (b) van daardie sub-artikel verleen, gelas dat vergoeding (waarvan die bedrag en wyse van betaling deur die waterhof vasgestel word) betaal word aan enigiemand wie se regte ingekort is,

en kan die ander voorwaardes wat hy wenslik ag, oplê ten opsigte van enige vergunning ingevolge daardie sub-artikel verleen.

12. (1) Iemand wat 'n nywerheidsonderneming ten opsigte waarvan enige hoeveelheid water vir gebruik vir nywerheidsdoeleindes benodig is, wil oprig, moet voordat hy so 'n onderneming begin of oprig—

- (a) die direkteur in kennis stel van die aard en die metode van suiwing van die afvalwater, afloop of afval, as daar is, wat deur die werking van sodanige onderneming sal ontstaan; en
- (b) indien hy 'n hoeveelheid openbare water vir nywerheidsdoeleindes wil gebruik wat sestigduisend gellings op enige dag of gemiddeld vyftigduisend gellings per

- (i) if the water court is of opinion that the grant of such permission will be in the public interest, permit the applicant to abstract from a public stream or to impound and store within or outside the channel of a public stream and to abstract, for use at any place for agricultural, urban or industrial purposes or such other purposes as the water court may determine, whether on land riparian to such stream or elsewhere, a stated quantity of public water, whether surplus water or normal flow of such stream;
- (ii) if the water court is satisfied that during any period all the water of a public stream, whether normal flow or surplus water, is not or will not be used on land riparian to every stream in or into which such water naturally flows, permit the applicant to abstract from such stream or to impound and store outside the channel of such stream and to abstract during the said period so much of the water as in the opinion of the water court is not or will not be so used, for agricultural, industrial or urban purposes, either on riparian land within the catchment area of such stream or elsewhere.

(3) A water court shall not consider an application for permission to use a quantity of water exceeding sixty thousand gallons on any one day or fifty thousand gallons on an average per day during any month for industrial purposes, unless the application is accompanied by a permit issued by the Minister under sub-section (5) of section twelve.

(4) Before granting any permission under sub-paragraph (i) of paragraph (b) of sub-section (2), the water court shall determine in what manner and to what extent the rights of the persons or of any one or more of the persons entitled to the use of water from the stream in question shall be abated for the purpose of making available the water in respect of which such permission is to be granted: Provided that—

- (a) such abatement shall as far as practicable be made in the first instance in respect of the rights of persons who have not exercised such rights;
- (b) any rights to the water of the public stream in question vested in any person by virtue of any statute not specifically repealed or amended by this Act shall not be subject to any abatement;
- (c) the rights of a riparian owner to the use of the normal flow of such stream for domestic purposes and for the watering of his stock shall not be so abated or otherwise prejudicially affected without his written consent.

(5) Any permission under sub-paragraph (ii) of paragraph (b) of sub-section (2) may be granted permanently or for such period as the water court may determine.

(6) The water court may—

- (a) in respect of a permission granted under paragraph (a) or sub-paragraph (ii) of paragraph (b) of sub-section (2), impose such conditions as in its opinion will prevent lower riparian owners from being prejudicially affected; and
- (b) in respect of a permission granted under sub-paragraph (i) of paragraph (b) of that sub-section, order the payment of compensation (the amount and manner of payment whereof shall be determined by the water court) to any person whose rights have been abated,

and may impose such other conditions in respect of any permission granted under the said sub-section as it may deem desirable.

12. (1) Any person who desires to establish an industrial undertaking in respect of which any quantity of water is required to be used for industrial purposes shall, before initiating or establishing such undertaking—

- (a) advise the director of the nature and the method of purification of the waste water, effluent or waste, if any, which will be occasioned by the operation of such undertaking; and
- (b) if he desires to use for industrial purposes a quantity of public water exceeding sixty thousand gallons on any one day or fifty thousand gallons on an average

Permit for industrial use of water to be obtained from Minister in certain cases.

dag gedurende enige maand te bowe gaan (hetsy 'n gedeelte van daardie water, in die geval van water uit 'n openbare stroom geneem, vervolgens na bedoelde stroom teruggekeer word, al dan nie) by die Minister om 'n permit wat sodanige gebruik magtig, aansoek doen.

(2) Iemand wat gedurende die in paragraaf (b) van sub-artikel (1) van artikel *elf* bedoelde tydperk van ses maande, in verband met enige onderneming 'n hoeveelheid openbare water gebruik het wat gemiddeld vyftigduisend gallons per dag te bowe gaan, moet binne ses maande na die inwerkingtreding van hierdie Wet by die direkteur 'n opgawe indien waarin die hoeveelheid sodanige water aldus gebruik gedurende daardie tydperk en besonderhede aangaande die onderneming ten opsigte waarvan daardie water aldus gebruik was, aangetoon word.

(3) 'n Aansoek ingevolge sub-artikel (1) moet in die vorm wees en die besonderhede bevat wat by regulasie voorgeskryf mag word.

(4) By ontvangs van so 'n aansoek moet die Minister na oorlegpleging met die Minister van Ekonomiese Sake en na sodanige ondersoek as wat hy goetvind, die aansoek oorweeg met behoorlike inagneming van—

(a) die hoeveelheid water wat volgens sy oordeel gewoonlik by die voorgestelde voorsieningsbron vir gebruik beskikbaar is;

(b) die vraag of die verlening van 'n permit ingevolge hierdie artikel die voorraad waarskynlik in so 'n mate sal verminder dat redelike voorsiening van water uit dieselfde bron aan persone binne die regsgebied van die plaaslike bestuur, liggaam of persoon betrokke by die voorsiening van bedoelde water, of, al na die geval, aan persone wat geregtig is om water uit daardie bron te gebruik, in gevaar gestel mag word al dan nie; en

(c) die vraag of dit nie in die openbare belang, of met die oog op desentralisering van nywerheidsondernemings, of weens die aard van die afvalwater, afloop of afval wat deur die werking van die betrokke onderneming sal ontstaan of die metode wat vir die suiwering van sodanige afvalwater, afloop of afval, toegepas sal word, wenslik sal wees om bedoelde onderneming elders as op die plek in die aansoek vermeld, te stig nie.

(5) Die Minister kan vervolgens 'n permit verleen ooreenkomstig die aansoek of met die wysigings wat hy goetvind, of weier om 'n permit te verleen.

(6) Die bepalinge van hierdie artikel word nie so uitgelê dat dit iemand daarvan vrystel om by 'n waterhof aansoek te doen om vergunning om openbare water vir nywerheidsdoeleindes te gebruik nie.

Plaaslike bestuur kan water binne sy gebied vir stedelike gebruik neem.

13. (1) Indien 'n eienaar van grond wat binne die regsgebied van 'n plaaslike bestuur geleë is, geregtig is op die gebruik, vir die besproeiing van daardie grond, van die water van 'n openbare stroom waaraan daardie grond oewergrond is, kan genoemde plaaslike bestuur, indien hy bedoelde water of enige deel daarvan vir stedelike doeleindes nodig het, met toestemming van die Administrateur van die provinsie waarin daardie plaaslike bestuur ingestel is en van die Minister, bedoelde water of enige gedeelte daarvan neem wat hy aldus nodig het.

(2) 'n Plaaslike bestuur moet, voordat hy die by sub-artikel (1) aan hom verleende bevoegdheid uitoefen, aan die betrokke eienaar minstens ses maande vooruit skriftelik kennis gee van sy voorneme om dit te doen, en moet aan bedoelde eienaar die vergoeding betaal waarop ooreengekom of wat by ontstentenis van ooreenkoms deur 'n waterhof vasgestel mag word.

Gebruik van openbare water deur Spoorweg- en Hawensadministrasie onder spesiale omstandighede.

14. (1) Indien die instandhouding van spoorwegdienste deur die Suid-Afrikaanse Spoorweg- en Hawensadministrasie te eniger tyd bemoeilik word deurdat 'n bestaande watervoorraad wat daardie Administrasie wettiglik vir spoorwegdoeleindes gebruik, tydelik of gedeeltelik ontoereikend word, kan bedoelde Administrasie ooreenkomstig die bepalinge van sub-artikel (2) aansoek doen om 'n tydelike bevel wat aan hom die reg verleen om 'n vermelde hoeveelheid openbare water vir spoorwegdoeleindes te gebruik.

(2) 'n Aansoek om 'n bevel kragtens sub-artikel (1) moet gerig word aan 'n regter van die afdeling van die Hooggeregshof van Suid-Afrika wat regsbevoegdheid uitoefen in die gebied waar die water, waarop die aansoek betrekking het, uitgeneem staan te word.

per day during any month (whether or not any portion of such water is, in the case of water abstracted from a public stream, subsequently returned to that stream), apply to the Minister for a permit authorizing such use.

(2) Any person who has during the period of six months referred to in paragraph (b) of sub-section (1) of section *eleven* used in connection with any undertaking a quantity of public water exceeding on an average fifty thousand gallons per day, shall within six months after the commencement of this Act lodge with the director a statement showing the quantity of such water so used during that period and particulars of the undertaking in connection with which that water was so used.

(3) An application under sub-section (1) shall be in such form and shall contain such particulars as may be prescribed by regulation.

(4) Upon receipt of such application the Minister shall, after consultation with the Minister of Economic Affairs, and after such investigation as he may deem fit, consider the application with due regard to—

- (a) the quantity of water which is, in his opinion, ordinarily available for use at the proposed source of supply;
- (b) whether or not the granting of a permit under this section would be likely to result in such a diminution of the supply as to endanger the reasonable supply of water from the same source to persons in the area of jurisdiction of the local authority, body or person concerned with the supply of such water, or (as the case may be) to persons entitled to use water from that source; and
- (c) whether it would not be desirable in the public interest or with a view to the decentralisation of industrial undertakings or the nature of the waste water, effluent or waste which will be occasioned by the operation of the undertaking in question or the method to be applied in the purification of such waste water, effluent or waste, that such undertaking be established at a place other than the place stated in the application.

(5) The Minister may thereupon grant a permit in terms of the application or with such modifications as he may deem fit, or refuse to grant a permit.

(6) Nothing in this section contained shall be construed as exempting any person from applying to a water court for permission to use public water for industrial purposes.

13. (1) If an owner of land which is situated within the area of jurisdiction of a local authority is entitled to the use of the water of a public stream to which such land is riparian for the irrigation of that land, the said local authority may, if it requires such water or any portion thereof for urban purposes, with the consent of the Administrator of the province in which such local authority has been established and of the Minister, take such water or any portion thereof as it may so require.

Local authority entitled to take water within its area for urban use.

(2) A local authority shall before exercising the power conferred upon it by sub-section (1), give to the owner concerned not less than six months' notice in writing of its intention to do so, and shall pay to such owner such compensation as may be agreed upon or failing agreement determined by a water court.

14. (1) If the maintenance of railway services by the South African Railways and Harbours Administration is at any time rendered difficult owing to a temporary or partial failure of an existing supply of water which that Administration is lawfully using for railway purposes, the said Administration may in accordance with the provisions of sub-section (2) make application for a temporary order permitting it to use a stated quantity of public water for railway purposes.

Use of public water by Railways and Harbours Administration under special circumstances.

(2) An application for an order under sub-section (1) shall be made to a judge of the division of the Supreme Court of South Africa which exercises jurisdiction in the area within which the water to which the application relates is to be abstracted.

(3) So 'n regter kan, ondanks andersluidende bepalings van hierdie Wet, 'n bevel verleen wat die gebruik van bedoelde water toelaat oor so 'n tydperk en onderworpe aan sodanige bedinge en voorwaardes as wat hy bepaal.

(4) Indien genoemde regter 'n bevel kragtens sub-artikel (3) verleen, en eienaars van grond wat oewergrond aan die openbare stroom is waaruit die tydelike watervoorraad ingevolge die bevel geneem word, of ander persone wat op die gebruik van die water uit daardie stroom geregtig is, benadeel word deurdat hulle tydelik van die gebruik van bedoelde water ontroof word en gevolglik skade gely het, moet bedoelde Administrasie aan daardie eienaars of persone die vergoeding betaal waarop ooreengekom word, of wat, te eniger tyd na die verlening van die bevel, en na behoorlike kennisgewing aan die betrokke partye, deur bedoelde regter of 'n ander regter van dieselfde afdeling van die Hooggeregshof bepaal mag word.

(5) Enige verrigtings ingevolge hierdie artikel word by die toepassing van hierdie Wet geag verrigtings voor 'n waterhof te wees en die regter voor wie sodanige verrigtings plaasvind, word geag 'n waterhofregter te wees.

(6) Die gebruik van water deur voormelde Administrasie vir spoorwegdoeleindes ingevolge die uitoefening van 'n reg op water wat wettiglik deur hom van 'n oewereienaar verkry is, of wat hy andersins onmiddellik voor die inwerkingtreding van hierdie Wet wettiglik geniet het, word geag deur 'n waterhof veroorloof te gewees het.

Voorbehoud ten opsigte van gebiede beskerm ingevolge herroepe bepalings van Wet 8 van 1912.

15. Ondanks die herroeping deur hierdie Wet van die onherroepe bepalings van die „Besproeiings- en Waterbewarings Wet, 1912” (Wet No. 8 van 1912), en van die Besproeiings-Wysigingswet, 1934 (Wet No. 46 van 1934), bly enige vergunning verleen of bepaling gemaak of bevel uitgevaardig of ander handeling verrig deur 'n waterhof, en enige onderneming of sekuriteit gegee deur enigiemand, ingevolge artikel vyftien of sestig van genoemde „Besproeiings- en Waterbewarings Wet, 1912”, voor die inwerkingtreding van bedoelde Besproeiings-Wysigingswet, 1934, ten volle van krag en geldig asof hierdie Wet nie aangeneem was nie.

Beperking op bou van waterwerke en uitneem van water in beskermde gebiede.

16. (1) 'n Eienaar van oewergrond wat op die datum van inwerkingtreding van hierdie Wet onder aparte titelbewys geregistreer is en wat geleë is binne die opvanggebied waarop 'n in artikel vyftien bedoelde vergunning, bepaling of bevel betrekking het, kan ondanks daardie vergunning, bepaling of bevel op bedoelde grond—

(a) waterwerke bou van 'n totale opgaarkapasiteit van hoogstens vyf-en-twintigmiljoen gellings, waarin hy vir sy eie gebruik surpluswater in enige openbare stroom waaraan sy grond oewergrond is, kan opdam en opgaar; en

(b) uitkeerwaterwerke bou waardeur hoogstens tien kubieke voet water per sekonde uitkeer kan word, deur middel waarvan hy surpluswater uit so 'n openbare stroom vir sy eie gebruik kan uitkeer.

(2) Die bepalings van sub-artikel (1) is nie van toepassing nie ten opsigte van 'n eienaar aan wie deur 'n waterhof vergunning verleen is om binne die in genoemde sub-artikel bedoelde opvanggebied opgaar- of uitkeerwaterwerke te bou en wat dit gebou het nie: Met dien verstande dat indien sodanige opgaarwerke van 'n kapasiteit benede vyf-en-twintigmiljoen gellings is of sodanige uitkeerwerke minder as tien kubieke voet water per sekonde kan uitkeer, die eienaar van bedoelde werke na gelang van die omstandighede—

(a) bedoelde waterwerke kan vergroot om hoogstens vyf-en-twintigmiljoen gellings water daarin op te dam en op te gaar, of addisionele waterwerke kan bou waarin, tesame met bedoelde werke, in die geheel hoogstens vyf-en-twintigmiljoen gellings water opgegaar kan word; of

(b) bedoelde waterwerke kan vergroot ten einde hom in staat te stel om hoogstens tien kubieke voet water per sekonde uit te keer, of addisionele waterwerke kan bou wat, tesame met bedoelde waterwerke, in staat sal wees om hoogstens tien kubieke voet water per sekonde uit te keer.

Bou van werke en uitneem van water in beskermde gebiede met toestemming van waterhof.

17. (1) Indien 'n eienaar van oewergrond in sub-artikel (1) van artikel sestig bedoel, waterwerke daarop wil bou van 'n groter kapasiteit as wat in paragraaf (a) of (b) van daardie sub-artikel genoem word, kan hy by 'n waterhof om vergunning vir die bou van sodanige werke aansoek doen, en die waterhof kan vergunning vir die bou van daardie werke verleen of onvoor-

(3) Any such judge may, notwithstanding anything to the contrary contained in this Act, make an order permitting the use of such water for such period and subject to such terms and conditions as he may determine.

(4) If the said judge makes an order in terms of sub-section (3), and owners of land riparian to the public stream from which the temporary supply of water is abstracted in pursuance of the order, or any other persons who are entitled to the use of the water of such stream, are adversely affected by being temporarily deprived of the use of such water and have suffered loss as a result thereof, the said Administration shall pay to those owners or persons such compensation as may have been agreed upon or as may, at any time subsequent to the making of the order, and after due notice to the parties concerned, be determined by the said judge or any other judge of the same division of the Supreme Court.

(5) Any proceedings under this section shall for the purposes of this Act be deemed to be proceedings before a water court, and the judge presiding at such proceedings shall be deemed to be a water court judge.

(6) The use of water by the aforesaid Administration for railway purposes in the exercise of any right to water lawfully acquired by it from any riparian owner or otherwise lawfully enjoyed by it immediately prior to the commencement of this Act, shall be deemed to have been permitted by a water court.

15. Notwithstanding the repeal by this Act of the unrepealed provisions of the Irrigation and Conservation of Waters Act, 1912 (Act No. 8 of 1912), and of the Irrigation Amendment Act, 1934 (Act No. 46 of 1934), any permission granted or determination made or order issued or other act performed by a water court, and any undertaking or security given by any person, under section *fifteen* or *sixteen* of the said Irrigation and Conservation of Waters Act, 1912, prior to the commencement of the said Irrigation Amendment Act, 1934, shall remain of the same force and effect as if this Act had not been passed.

Saving in respect of areas protected under repealed provisions of Act 8 of 1912.

16. (1) An owner of riparian land situated within the catchment to which any permission, determination or order referred to in section *fifteen* relates, which is registered under separate title deed at the date of commencement of this Act, may, notwithstanding such permission, determination or order, construct on such land—

Limitation on construction of water works and abstraction of water in protected areas.

- (a) water works of a storage capacity not exceeding twenty-five million gallons in the aggregate in which he may impound and store for his own use surplus water in any public stream to which his land is riparian; and
- (b) diversion water works capable of diverting a flow of water not exceeding ten cubic feet per second by means of which he may divert for his own use surplus water from any such public stream.

(2) The provisions of sub-section (1) shall not apply in respect of an owner to whom permission has been granted by a water court to construct and who has constructed storage or diversion water works in the catchment referred to in the said sub-section: Provided that if such storage works are of a smaller capacity than twenty-five million gallons or such diversion works are capable of diverting a flow of less than ten cubic feet of water per second, the owner of such works may, according to the circumstances—

- (a) enlarge such water works to impound and store not more than twenty-five million gallons of water therein or construct additional water works which, together with such works, will be capable of storing in the aggregate not more than twenty-five million gallons of water; or
- (b) enlarge such water works to enable him to divert a flow of water not exceeding ten cubic feet per second or construct additional water works which, together with such water works, will be capable of diverting a flow of water not exceeding ten cubic feet per second.

17. (1) If an owner of riparian land referred to in sub-section (1) of section *sixteen* desires to construct thereon water works of a capacity exceeding that mentioned in paragraph (a) or (b) of that sub-section, he may apply to a water court for permission to construct such works, and the water court may grant permission for the construction of such works, either un-

waardelik òf onderworpe aan die wysigings en voorwaardes wat hy nodig ag, indien hy oortuig is dat die regte van persone aan wie, ingevolge 'n bevel in artikel *vyftien* bedoel, beskerming vir hul werke verleen is, nie daardeur benadeel sal word nie, en moet in so 'n geval tegelykertyd die hoeveelheid water vasstel wat die applikant uit hoofde van die vergunning kan opdam of uitkeer.

(2) Voordat hy ingevolge sub-artikel (1) vergunning verleen, moet die waterhof aan elke oewereienaar wat waarskynlik daardeur geraak sal word, 'n geleentheid bied om by die waterhof enige beswaar teen die verlening van die vergunning aan te teken, hetsy wat betref die hoeveelheid water bedoel om opgegaar of uitgekeer te word of wat betref enige ander aangeleentheid.

(3) 'n Besproeiingsraad wat geregtig mag wees om ingevolge sub-artikel (2) enige beswaar aan te teken, kan voor die waterhof verskyn namens persone wat vir die betaling van belastinge aan die raad verantwoordelik is, en enige kennisgewing wat in verband met so 'n beswaar aan daardie persone besorg moet word, word geag behoorlik aan hulle besorg te gewees het indien bedoelde kennisgewing aan die raad besorg is.

Regering en persone wat beskerming geniet geregtig om werke in beskermd gebied te bou.

18. (1) Indien die opgaarkapasiteit van 'n opgaarwerk ten opsigte waarvan voor die inwerkingtreding van die Besproeiings-Wysigingswet, 1934, deur 'n waterhof kragtens artikel *vyftien* of *sestien* van die „Besproeiings- en Waterbewarings Wet, 1912”, beskerming verleen is, weens toeslikking of om enige ander rede verminder het tot minder as die kapasiteit deur bedoelde waterhof gemagtig, kan die eienaar van daardie werk met toestemming van die waterhof bedoelde werk vergroot of in dieselfde openbare stroom bokant of onderkant eersbedoelde werk 'n ander opgaarwerk bou ten einde 'n totale hoeveelheid water wat in die geheel die aldus gemagtigde kapasiteit nie te bowe gaan nie, op te dam en op te gaar.

(2) Die Minister kan 'n Staatswaterwerk bou in enige opvanggebied waarop 'n vergunning, bepaling of bevel in artikel *vyftien* bedoel, betrekking het, en enige Staatswaterwerk binne so 'n opvanggebied voor die datum van inwerkingtreding van hierdie Wet aangelê of voltooi, word geag deur hierdie artikel gemagtig te gewees het.

(3) Indien enige werk kragtens sub-artikel (1) of (2) gebou, geleë is bokant die werk ten opsigte waarvan uit hoofde van die in sub-artikel (1) bedoelde bepalings beskerming verleen is, en die bou daarvan gelei het tot 'n vermindering in die aandeel van die water van die betrokke openbare stroom wat 'n laer oewereienaar, wie se grond geleë is in die opvanggebied waarop bedoelde beskerming betrekking het, geregtig is om op te dam of uit te keer deur middel van waterwerke wat op die datum van die aanvang van sodanige bouwerk bestaan en voordelig gebruik word, moet die eienaar wat daardie werk gebou het of die Minister, na gelang van die geval, òf—

(a) aan daardie laer oewereienaar sodanige vergoeding betaal; òf

(b) in plaas van die water van die gebruik waarvan daardie laer eienaar ontroof is, aan bedoelde eienaar van tyd tot tyd so 'n hoeveelheid water uit die aldus geboude werke voorsien,

as wat by ooreenkoms bepaal of by ontstentenis van ooreenkoms deur 'n waterhof vasgestel mag word.

Regsmiddel teen buitensporige opgaring, opdamming of uitkering van surpluswater.

19. 'n Eienaar van grond wat oewergrond aan 'n openbare stroom is, wat hom veronreg voel deur die opgaring, opdamming of uitkering deur 'n hoër oewereienaar langs daardie stroom van 'n groter hoeveelheid van die surpluswater daarvan as wat hy redelikerwys geregtig mag wees om te gebruik, kan by 'n waterhof aansoek doen om by bevel die hoeveelheid water vas te stel wat daardie hoër oewereienaar volgens genoemde hof se oordeel geregtig is om op te gaar, op te dam of uit te keer, en daarna is genoemde hoër eienaar nie geregtig om 'n groter hoeveelheid water as die aldus vasgestelde hoeveelheid op te gaar, op te dam of uit te keer nie: Met dien verstande dat 'n waterhofbevel kragtens hierdie artikel verleen, geen inbreuk maak nie op die gebruik, genot of uitoefening van enige reg wat tevore bestaan het, of op 'n vergunning om surpluswater op te gaar, op te dam of uit te keer, wat tevore ooreenkomstig 'n bevel van 'n waterhof kragtens hierdie Wet of 'n vorige wet verleen is, tensy bedoelde vergunning voor die inwerkingtreding van die Besproeiings-Wysigingswet, 1934, kragtens sub-artikel (3) van artikel *sestien* van die „Besproeiings- en Waterbewarings Wet, 1912”, ingetrek was, of uit hoofde van die bepalings van daardie artikel verval het.

conditionally or subject to such modifications and conditions as it may deem necessary, if it is satisfied that the rights of persons who have been granted protection in respect of their works in terms of any order referred to in section *fifteen* will not be adversely affected thereby, and shall in that event at the same time determine the amount of water which the applicant may by virtue of such permission impound or divert.

(2) Before granting any permission under sub-section (1), the water court shall afford every riparian owner who is likely to be affected thereby an opportunity to raise any objection before it to the granting of such permission, whether as regards the amount of water proposed to be stored or diverted or as regards any other matter.

(3) An irrigation board which may be entitled to raise any objection under sub-section (2) may appear before the water court on behalf of the persons liable for the payment of rates to the board, and any notice required to be served on such persons in connection with any such objection shall be deemed to have been duly served on them if the said notice has been served on the board.

18. (1) If the storage capacity of a storage work in respect of which protection has prior to the commencement of the Irrigation Amendment Act, 1934, been granted by a water court under section *fifteen* or *sixteen* of the Irrigation and Conservation of Waters Act, 1912, has become reduced by siltation or any other cause to less than the capacity authorized by such water court, the owner of such work may, with the permission of the water court, enlarge the said work or construct another storage work in the same public stream above or below the first-mentioned work in order to impound and store a total quantity of water not exceeding in the aggregate the capacity so authorized.

Rights of Government and persons enjoying protection to construct works in protected areas.

(2) The Minister may construct a Government water work in any catchment to which a permission, determination or order referred to in section *fifteen* relates, and any Government water work within such a catchment commenced or completed before the date of commencement of this Act shall be deemed to have been authorized by this section.

(3) If any work constructed in terms of sub-section (1) or (2) is situated above the work in respect of which protection has been granted by virtue of the provisions referred to in sub-section (1), and its construction has resulted in a diminution of the share of the water of the public stream in question which any lower riparian owner, whose land is situated in the catchment to which such protection relates, is entitled to impound or divert by means of water works existing and being beneficially used at the date of commencement of such construction, the owner who has constructed such work or the Minister, as the case may be, shall either—

- (a) pay to that lower riparian owner such compensation; or
- (b) in lieu of the water of the use whereof such lower owner has been deprived, supply such owner from time to time with such a quantity of water from the works so constructed,

as may be agreed upon or failing agreement determined by a water court.

19. An owner of land riparian to a public stream who feels aggrieved by the storage, impoundment or diversion by an upper riparian owner along such stream of a greater quantity of the surplus water thereof than he could reasonably be entitled to use, may apply to a water court for an order determining the quantity of water which, in the opinion of the said court, the said upper owner shall be entitled to store, impound or divert, and thereafter the said upper owner shall not be entitled to store, impound or divert a greater quantity of water than the quantity so determined: Provided that no order of a water court under this section shall interfere with the use, enjoyment or exercise of any right previously held, or any permission previously granted in terms of an order made by a water court under this Act or any prior law to store, impound or divert surplus water, unless such permission was cancelled under sub-section (3) of section *sixteen* of the Irrigation and Conservation of Waters Act, 1912, prior to the commencement of the Irrigation Amendment Act, 1934, or has lapsed by virtue of the provisions of the said section.

Remedy against excessive storage, impoundment or diversion of surplus water.

Regte van
oewereienaars
in geval van
verandering in
die loop van
openbare stroom.

20. (1) Waar 'n openbare stroom wat die grens tussen twee of meer stukke oewergrond daaraan uitmaak, as gevolg van natuurlike oorsake ophou om tussen daardie stukke grond te vloei of hulle te skei, en in 'n nuwe loop gekeer word, bly die grense van die onderskeie stukke grond dieselfde asof daar nie so 'n verandering in die loop plaasgevind het nie, en so 'n verandering ontroof 'n eienaar van oewergrond wat weens die verandering van bedoelde openbare stroom afgesny mag word, nie van sy oewerrechte met betrekking tot daardie stroom nie, en daardie regte bly voortbestaan en word in ag geneem asof bedoelde stroom nie aldus van koers verander het nie.

(2) 'n In sub-artikel (1) bedoelde eienaar kan te eniger tyd binne 'n tydperk van tien jaar nadat die verandering in die loop van die openbare stroom waaraan sy grond oewergrond is, plaasgevind het, by 'n waterhof aansoek doen om 'n bevel waarby die plek of plekke langs die nuwe loop van genoemde stroom voorgeskryf word wat aan die waterhof nodig blyk vir die praktiese uitoefening deur bedoelde eienaar van sy oewerrechte, en die waterhof verleen op so 'n aansoek aan daardie eienaar 'n toegangsreg tot die betrokke openbare stroom by bedoelde plek of plekke langs 'n gerieflike lyn deur die waterhof vasgestel ten einde daardie eienaar in staat te stel om water van bedoelde stroom te neem en te vervoer vir die doeleindes waarvoor hy ingevolge hierdie Wet geregtig is om water daarvan te gebruik.

(3) Wanneer so 'n verandering in die loop van 'n openbare stroom tot nadeel van 'n oewereienaar daaraan is, kan hy binne vyf jaar nadat die verandering plaasgevind het, by die waterhof aansoek doen om toestemming tot die bou van sodanige werke as wat volgens die waterhof se oordeel nodig mag wees om die stroom tot sy vorige bedding terug te voer.

Suiwering van en
beskikking oor
nywerheids- en
afloopwater.

21. (1) (a) Die suiwering van afvalwater of afloop of afval wat verkry word deur of ontstaan uit die gebruik van water vir nywerheidsdoeleindes, maak 'n integrerende deel van die proses van sodanige gebruik uit, en behoudens die bepalinge van sub-artikel (5), moet enigiemand wat water vir nywerheidsdoeleindes gebruik, sodanige water, afloop of afval suiwer sodat dit voldoen aan die vereistes wat die Minister van tyd tot tyd, na oorlegpleging met die Suid-Afrikaanse Buro vir Standaarde, by kennisgewing in die *Staatskoerant*, hetsy algemeen of met betrekking tot water gebruik vir of in verband met een of meer vermelde nywerheidsdoeleindes, voorskryf.

(b) Enige vereistes ingevolge paragraaf (a) voorgeskryf, moet sodanig wees om te verseker dat die afvalwater, afloop of afval waarop sodanige vereistes betrekking het, na suiwering ooreenkomstig bedoelde vereistes minstens so vry van onsuiverhede sal wees as wat die geval sou gewees het indien die suiwering daarvan ooreenkomstig die aanbeveling van bedoelde Buro geskied het.

(2) Openbare water wat vir nywerheidsdoeleindes gebruik is, en enige afloop wat deur sodanige gebruik verkry word of daaruit ontstaan, behalwe water of afloop in sub-artikel (3) bedoel, moet behoudens die bepalinge van artikel *elf*, na suiwering ooreenkomstig sub-artikel (1), deur die gebruiker by die naaste gerieflike plek na die bedding van die openbare stroom waaruit daardie water geneem is, teruggevoer word: Met dien verstande dat waar water aldus gebruik is op 'n plek geleë buite die natuurlike waterskeiding van die opvanggebied van 'n openbare stroom waaruit dit geneem is, en dit volgens die waterhof se oordeel weens fisiese of ekonomiese redes ondoenlik is om daardie water of sodanige afloop na bedoelde stroom terug te voer, daardie water of afloop deur die gebruiker op 'n plek wat die waterhof bepaal na die bedding van 'n ander openbare stroom teruggevoer mag word.

(3) Die bepalinge van sub-artikels (1) en (2) is nie van toepassing nie ten opsigte van iemand aan wie water voorsien word deur die Minister of deur 'n plaaslike bestuur of ander persoon of wettiglik saamgestelde liggaam wat die reg het om openbare of private water, insluitende onderaardse water, binne sy regsgebied te beheer en te voorsien, indien die Minister of, al na die geval, bedoelde plaaslike bestuur, persoon of liggaam of enige ander plaaslike bestuur onderneem het om oor daardie water of enige afvalwater of afloop wat uit die gebruik van daardie water verkry is of ontstaan het, te beskik nadat die water deur genoemde persoon gebruik is en in 'n kanaal, afvoersloot of riool onder die beheer van die Minister of die betrokke plaaslike bestuur, persoon of liggaam afgelaat is.

20. (1) Where owing to natural causes a public stream which constitutes the boundary between two or more pieces of land riparian thereto, ceases to flow between or separate such pieces of land and is diverted to a new course, the boundaries of the several pieces of land shall remain as if no such change of course had taken place, and no such change of course shall deprive an owner of riparian land which may be cut off from such public stream by reason of such change of his riparian rights in relation to such stream, which rights shall remain and be regarded as if the said stream had not been so diverted.

Rights of riparian owners in event of change of course of public stream.

(2) An owner referred to in sub-section (1) may at any time within a period of ten years after the change in the course of the public stream to which his land is riparian apply to a water court for an order prescribing such point or points on the new course of the said stream as to the water court may appear necessary for the practical exercise by such owner of his riparian rights, and the water court shall upon such application grant to that owner a right of access to the public stream in question at such point or points along a convenient line to be determined by it as will enable the said owner to take and convey water from such stream for the purposes for which he is entitled to use water therefrom under this Act.

(3) When any such change in the course of a public stream is to the detriment of any owner riparian thereto, he may, within five years after the change has taken place, apply to the water court for permission to construct such works as in the opinion of the water court may be necessary for the restoration of such stream to its former channel.

21. (1) (a) The purification of any waste water or any effluent or waste produced by or resulting from the use of water for industrial purposes shall form an integral part of the process of such use and, subject to the provisions of sub-section (5), any person using water for industrial purposes shall purify such water, effluent or waste so as to conform to such requirements as the Minister may from time to time after consultation with the South African Bureau of Standards, prescribe by notice in the *Gazette* either generally or in relation to water used for or in connection with any one or more specified industrial purposes.

Purification and disposal of industrial water and effluents.

(b) Any requirements prescribed under paragraph (a) shall be such as to ensure that the waste water, effluent or waste to which such requirements relate will, after purification in accordance with those requirements, be at least as free of impurities as would have been the case if the purification thereof had been effected in accordance with the recommendation of the said Bureau.

(2) Public water which has been used for industrial purposes and any effluent produced by or resulting from such use, other than water or effluent referred to in sub-section (3), shall, subject to the provisions of section *eleven*, after purification in accordance with sub-section (1), be returned by the user at the nearest convenient point to the bed of the public stream from which the said water was abstracted: Provided that where water has been so used at any place outside the natural watershed of the catchment area of a public stream from which it was abstracted and in the opinion of the water court it is for physical or economic reasons impracticable to return such water or any such effluent to the said stream, such water or effluent may be returned by the user to the bed of some other public stream at a point determined by the water court.

(3) The provisions of sub-sections (1) and (2) shall not apply in respect of a person supplied with water by the Minister or by any local authority or other person or lawfully constituted body having a right to control and supply public or private water, including underground water, within its area of jurisdiction, if the Minister or, as the case may be, such local authority, person or body or any other local authority has undertaken the duty of disposing of such water or any effluent or waste produced by or resulting from the use thereof after such water has been used by the said person and has been discharged into any channel, drain or sewer under the control of the Minister or the local authority, person or body concerned.

(4) Water wat vir nywerheidsdoeleindes gebruik en ooreenkomstig sub-artikel (2) teruggevoer word, mag nie in hoeveelheid verminder word nie behalwe vir sover die vermindering uit sodanige gebruik ontstaan.

(5) (a) Enige persoon of gebruiker in sub-artikel (1) of (2) bedoel, kan by die Minister om 'n permit wat hom vrystel van voldoening aan die bepalings van een of ander van daardie sub-artikels aansoek doen, en die Minister kan, na sodanige ondersoek as wat hy nodig ag, indien hy oortuig is dat voldoening aan bedoelde bepalings onder die besondere omstandighede onprakties is, 'n permit verleen onderworpe aan die voorwaardes wat hy mag goedvind om op te lê waarby bedoelde persoon of gebruiker van voldoening daaraan vrygestel word in die mate wat die Minister mag bepaal, of waarby bedoelde persoon of gebruiker gemagtig word om enige in sub-artikel (1) bedoelde afvalwater, afloop of afval in 'n ongesuiwerde toestand of in so 'n gedeeltelik gesuiwerde toestand as wat die Minister mag bepaal, by 'n plek deur die Minister vasgestel in 'n openbare stroom in te keer: Met dien verstande dat in die geval van 'n aansoek om vrystelling van voldoening aan die bepalings van sub-artikel (1), die Minister by die oorweging van die aansoek behoorlik met die regulasies uitgevaardig kragtens paragraaf (d) van sub-artikel (1) van artikel tien van die Strandwet, 1935 (Wet No. 21 van 1935), rekening moet hou, en nie so 'n permit uitreik nie tensy hy oortuig is dat—

(i) die voorwaardes wat in verband met sodanige permit opgelê staan te word, minstens so doeltreffend sal wees om besoedeling van openbare of ander water, insluitende seewater, te verhoed as enige voorwaardes of vereistes wat deur die Suid-Afrikaanse Buro vir Standaard aanbeveel mag gewees het; en

(ii) enige aldus deur hom vasgestelde plek so naby aan die see geleë is, dat dit onwaarskynlik is dat enigiemand anders benadeel sal word, en dat bedoelde afvalwater, afloop of afval in so 'n mate deur seewater of ander water in bedoelde stroom verdun sal word, dat nóg water- nóg seefauna of -flora in die openbare stroom of in die see nadelig getref sal word.

(b) Enige belanghebbende, behalwe 'n applikant om 'n permit ingevolge paragraaf (a), kan na skriftelike kennisgewing aan die Minister, by 'n waterhof om die intrekking of wysiging van 'n kragtens daardie paragraaf uitgereikte permit aansoek doen, en die waterhof kan op die aansoek so 'n bevel uitvaardig as wat hy billik ag.

(c) Die Minister kan te eniger tyd by skriftelike kennisgewing aan die houer van 'n permit kragtens paragraaf (a) uitgereik, daardie permit intrek of dit wysig op die wyse wat hy goedvind.

(6) (a) Die Minister kan, wanneer hy enige vereistes kragtens sub-artikel (1) voorskryf, of enige voorwaardes kragtens sub-artikel (5) oplê, ook die stappe vermeld wat deur enige persoon wat mynbou- of ander nywerheids-werksaamhede dryf, gedoen moet word ten einde die besoedeling van openbare of private water, insluitende onderaardse water, deur sypeling of dreinerings vanaf enige gebied waar sodanige werksaamhede gedryf word, te voorkom, sowel terwyl bedoelde werksaamhede aan die gang is as nadat dit gestaak is.

(b) So 'n persoon wat versuim om die aldus vermelde stappe te doen binne 'n tydperk wat deur die Minister vasgestel en by kennisgewing in die *Staatskoerant* of by skriftelike kennisgewing gerig aan bedoelde persoon bekend gemaak is, is aan 'n misdryf skuldig.

(7) By die toepassing van hierdie artikel word 'n plaaslike bestuur wat water vir die suiwing van of beskikking oor rioolvuil of enige ander in sub-artikel (3) bedoelde afvalwater of afloop gebruik, geag sodanige water vir nywerheidsdoeleindes te gebruik.

(8) Iemand wat die bepalings van hierdie artikel oortree of versuim om daaraan te voldoen, is aan 'n misdryf skuldig.

Beskikking oor

plaaslike besture.

22. (1) Ondanks die bepalings van die „Volksgezondheidswet, 1919” (Wet No. 36 van 1919), of enige ander wet, maar onderworpe aan die bepalings van sub-artikel (2), kan 'n plaaslike bestuur wat regsbevoeg is om oor rioolvuil te beskik, na die

(4) Water used for industrial purposes and returned in accordance with sub-section (2), shall not be diminished in quantity save in so far as such diminution is caused by such use.

(5) (a) Any person or user referred to in sub-section (1) or (2) may apply to the Minister for a permit exempting him from compliance with the provisions of either of those sub-sections, and the Minister may, after such investigation as he may consider necessary, if he is satisfied that compliance with the said provisions is impracticable in the particular circumstances, grant a permit subject to such conditions as he may deem fit to impose, exempting such person or user from compliance therewith to such extent as the Minister may determine, or authorizing such person or user to discharge any waste water, effluent or waste referred to in sub-section (1) in an unpurified state or in such state of semi-purification as the Minister may determine, into any public stream at a point to be fixed by the Minister: Provided that, in the case of an application for exemption from compliance with the provisions of sub-section (1), the Minister shall in considering such application have due regard to the regulations made under paragraph (d) of sub-section (1) of section *ten* of the Sea-shore Act, 1935 (Act No. 21 of 1935), and shall not issue such a permit unless he is satisfied that—

(i) the conditions to be imposed in connection with any such permit will be at least as effective for the purpose of preventing the pollution of public or other water, including sea water, as any conditions or requirements which may have been recommended by the South African Bureau of Standards; and

(ii) any point so fixed by him is in such proximity to the sea that it is unlikely that any other person will be prejudicially affected and that the dilution of such waste water, effluent or waste by sea water or other water contained in the said stream will be such that neither aquatic nor marine fauna or flora in the public stream or the sea will be detrimentally affected.

(b) Any interested person, other than an applicant for a permit under paragraph (a), may after written notification to the Minister apply to a water court for the cancellation or modification of any permit issued under that paragraph, and the water court may make such order on the application as it may consider equitable.

(c) The Minister may at any time by notice in writing to the holder of any permit issued in terms of paragraph (a), withdraw that permit or amend it in such manner as he may deem fit.

(6) (a) The Minister may in prescribing any requirements under sub-section (1) or imposing any conditions under sub-section (5), also specify the steps to be taken by any person carrying on any mining or other industrial operations, in order to prevent the pollution of public or private water, including underground water, by seepage or drainage from any area on which those operations are carried on both while such operations are in progress and after the abandonment thereof.

(b) Any such person who fails to take the steps so specified within a period determined by the Minister and made known by notice in the *Gazette* or by notice in writing addressed to such person, shall be guilty of an offence.

(7) For the purposes of this section, a local authority which uses water for the purification or disposal of sewage or any effluent or waste referred to in sub-section (3), shall be deemed to use such water for industrial purposes.

(8) Any person who contravenes or fails to comply with the provisions of this section shall be guilty of an offence.

22. (1) Notwithstanding the provisions of the Public Health Act, 1919 (Act No. 36 of 1919), or any other law, but subject to the provisions of sub-section (2), a local authority having jurisdiction over the disposal of sewage may, after purifying

Disposal of effluents by local authorities.

(2) Die Minister kan, op die voorwaardes wat hy goedvind, 'n plaaslike bestuur wat nie oor water beskik wat vir 'n ander nywerheidsdoel as die suiwering van en beskikking oor rioolvuil gebruik word nie, skriftelik van voldoening aan die bepalings van artikel *een-en-twintig* vrystel.

(3) 'n Plaaslike bestuur wat 'n voorwaarde onderworpe waaraan enige vrystelling kragtens sub-artikel (2) aan hom verleen is, oortree of versuim om daaraan te voldoen, is aan 'n misdryf skuldig.

Voorcoming van besoedeling van water.

23. (1) Iemand wat opsetlik of op nalatige wyse, en, waar enige bepaling van artikel *een-en-twintig* of *twee-en-twintig* van toepassing is, in stryd met daardie bepaling enigets doen waardeur openbare of private water, insluitende onderaardse water, op so 'n wyse besoedel word dat dit minder geskik word vir die doeleindes waarvoor dit gewoonlik gebruik word deur ander persone (met inbegrip van die Regering, die Suid-Afrikaanse Spoorweg- en Hawensadministrasie en 'n provinsiale administrasie) wat 'n reg op die gebruik daarvan het, of vir die voortplanting van vis- of ander waterlewe, of vir ontspannings- of ander regmatige doeleindes, is aan 'n misdryf skuldig.

(2) (a) Die Minister kan, uit gelde vir die doel deur die Parlement bewillig, enige stappe doen wat hy nodig ag om die besoedeling van openbare of private water, insluitende onderaardse water, as gevolg van sypeling of dreinerings vanaf enige gebied waar mynbou- of ander nywerheidswerkzaamhede gedryf was, nadat sodanige werkzaamhede gestaak is, te voorkom, en kan na goeddunke die koste of enige gedeelte van die koste in verband met die neem van bedoelde stappe aangegaan, verhaal op enige persoon wat bedoelde werkzaamhede gedryf het of geregtig is om dit te dryf.

(b) Die Minister, of 'n persoon deur hom daartoe gemagtig, kan te eniger tyd grond betree met die doel om enige van die in paragraaf (a) bedoelde stappe te doen, en kan met hom op bedoelde grond sodanige manne, diere, voertuie, toerusting, toestelle, instrumente, voorrade of materiaal neem, en kan sodanige kampe oprig en sodanige werke aanbou as wat vir daardie doel nodig mag wees.

(c) Geen vergoeding is aan enige persoon betaalbaar vir enige verlies wat hy mag ly as gevolg van enige stappe ingevolge hierdie sub-artikel gedoen nie, behalwe op bevel van 'n bevoegde hof.

Inwerkingtreding van artikel 21 met betrekking tot sekere persone.

24. Die Minister kan van tyd tot tyd aan enigiemand vrystelling van die toepassing van enige bepaling van artikel *een-en-twintig* verleen: Met dien verstande dat so 'n vrystelling nie verleen word nie ten opsigte van enige tydperk wat eindig op 'n datum meer as drie jaar na die inwerkingtreding van hierdie Wet of so 'n later datum, nie later as vyf jaar na bedoelde inwerkingtreding nie, as wat die Goewerneur-generaal met goedkeuring, by besluit, van beide Huise van die Parlement by proklamasie in die *Staatskoerant* mag bepaal.

Voorbehoud ten opsigte van sekere persone en grond-erosiewerke.

25. (1) Die bepalings van hierdie Hoofstuk word nie so uitgelê dat dit—

(a) iemand wat voor die eerste dag van Julie 1912 werke vir die aanwending van water van enige stroom gebou of in aanbou gehad het, verplig om water wat hy deur middel of vir die doeleindes van sy werke voordelig sou kon gebruik en wat hy op daardie datum geregtig was om aldus te gebruik, by sy werke te laat verbyvloei nie; of

(b) iemand wat voor die eerste dag van Julie 1912 water van enige stroom vir landboudeleindes op nie-oewergrond gebruik het en geregtig was om dit te gebruik, belet om met sodanige gebruik van daardie water voort te gaan nie; of

the effluent derived from the treatment of such sewage in accordance with standards prescribed under sub-section (1) of section *twenty-one*, and with the permission of the Minister, use such effluent for any purpose approved by the Minister or dispose of such effluent for use by any person or discharge such effluent into a public stream.

(2) The Minister may in writing, and on such conditions as he may deem fit, exempt from compliance with the provisions of section *twenty-one*, any local authority which does not dispose of water used for any industrial purpose other than the purification or disposal of sewage.

(3) Any local authority which contravenes or fails to comply with any condition subject to which any exemption has been granted to it under sub-section (2) shall be guilty of an offence.

23. (1) Any person who wilfully or negligently, and, where any provision of section *twenty-one* or *twenty-two* applies, contrary to that provision, does any act whereby any public or private water, including underground water, is polluted in such a way as to render it less fit for the purposes for which it is ordinarily used by other persons (including the Government, the South African Railways and Harbours Administration and any provincial administration) entitled to the use thereof, or for the propagation of fish or other aquatic life, or for recreational or other legitimate purposes, shall be guilty of an offence.

Prevention of pollution of water.

(2) (a) The Minister may out of moneys appropriated by Parliament for the purpose, take any steps which he may consider necessary to prevent the pollution, as a result of seepage or drainage from any area on which mining or other industrial operations have been carried on, of public or private water, including underground water, after such operations have been abandoned, and may in his discretion recover the cost or any part of the cost incurred in taking such steps from any person who carried on or is entitled to carry on such operations.

(b) The Minister or a person acting under his authority may at any time enter upon any land for the purpose of taking any steps referred to in paragraph (a), and may take with him on to such land any men, animals, vehicles, equipment, appliances, instruments, stores or materials, and may erect such camps and construct such works as may be necessary for that purpose.

(c) No compensation shall be payable to any person for any loss which may be sustained by him in consequence of any action taken under this sub-section, except by order of a competent court.

24. The Minister may from time to time grant exemption from the operation of any provision of section *twenty-one* to any person: Provided that no such exemption shall be granted in respect of any period ending on a date more than three years after the commencement of this Act or such later date, not more than five years after the said commencement, as may with the consent, by resolution, of both Houses of Parliament, be determined by the Governor-General by proclamation in the *Gazette*.

Commencement of section 21 in relation to certain persons.

25. (1) Nothing in this Chapter contained shall be construed as—

Savings in respect of certain persons and soil erosion works.

(a) compelling any person who, prior to the first day of July, 1912, constructed or had in course of construction, works for the use of water of any stream, to allow to flow down past his works water which he could beneficially use by means of or for the purpose of his works and which he was at that date entitled so to use; or

(b) preventing any person who, prior to the first day of July, 1912, used and was entitled to use the water of any stream for agricultural purposes on non-riparian land, from continuing so to use such water; or

(c) preventing any person from doing on his own land any act necessary to prevent the erosion thereof, provided he does not thereby waste public water through the unbeneficial storage or detention thereof or the unbeneficial flooding of veld.

(2) Die opgaring of terughouding van openbare water of die gebruik van openbare water vir die oorstroming van veld, vir sover dit redelikerwys nodig mag wees in verband met enige grondbewaringswerk wat kragtens die bepalings van die Grondbewaringswet, 1946 (Wet No. 45 van 1946), gemagtig is, word nie geag onvoordelige opgaring, terughouding of gebruik van daardie water te wees nie: Met dien verstande dat die Minister ten opsigte van enige openbare stroom by kennisgewing in die *Staatskoerant* sodanige spesifikasies en voorwaardes, onderworpe waaraan grondbewaringswerke aangebou mag word, kan voorskryf as wat hy nodig ag om te verseker dat openbare water nie tot nadeel van laer oewereienaars of enige eienaar van 'n waterwerk ten opsigte waarvan voor die inwerkingtreding van die Besproeiings-Wysigingswet, 1934, beskerming kragtens artikel vyftien of sestien van die „Besproeiings- en Waterbewarings Wet, 1912”, verleen is, op 'n wyse wat verkwisting meebring, opgegaar of teruggehou of vir die oorstroming van veld gebruik word nie.

(3) Iemand wat versuim om aan enige ingeolge sub-artikel (2) voorgeskrewe spesifikasies of voorwaardes te voldoen, is aan 'n misdryf skuldig.

Regulasies betreffende permitte en beheer oor besoedeling van water.

26. Die Minister kan regulasies uitvaardig betreffende—
- die vorm van aansoek om permitte onder artikel *twaalf* en die besonderhede wat in verband met so 'n aansoek of onder paragraaf (a) van sub-artikel (1) van artikel *twaalf* verstrekk moet word;
 - die vorm van enige aansoek onder sub-artikel (5) van artikel *een-en-twintig*, en die besonderhede wat in verband met so 'n aansoek verstrekk moet word;
 - die voorkoming van verspilling of besoedeling van openbare of private water, insluitende onderaardse water, en die bevoegdhede en pligte van persone aangestel om in verband daarmee beheer uit te oefen;
 - oor die algemeen enige ander aangeleentheid wat hy nodig of dienstig ag om voor te skryf sodat die oogmerke van artikels *een-en-twintig* tot en met *vier-en-twintig* verwezenlik kan word.

HOOFSTUK III.

BEHEER EN GEBRUIK VAN ONDERGRONDSE WATER EN WATER WAT ONDERGRONDS VERKRY WORD.

Omskrywing van ondergrondse water.

27. In hierdie Hoofstuk beteken „ondergrondse water” water wat natuurlik ondergronds bestaan, of water ondergronds verkry, wat binne die gebiede kragtens artikel *agt-en-twintig* tot ondergrondse waterbeheergebiede verklaar, voorkom.

Goewerneur-generaal kan ondergrondse waterbeheergebiede proklameer.

28. (1) Die Goewerneur-generaal kan van tyd tot tyd by proklamasie in die *Staatskoerant* 'n in die proklamasie omskrewe gebied tot 'n ondergrondse waterbeheergebied verklaar indien die Minister van oordeel is dat daardie gebied 'n dolomiet- of artesies-geologiese gebied is, of dat die uithaal van water wat natuurlik ondergronds in bedoelde gebied bestaan, tot buitensporige vermindering van ondergrondse watervoorrade in daardie gebied mag lei, en kan so 'n proklamasie op dergelyke wyse intrek of wysig.

(2) Enige gebied wat ingeolge die bepalings van artikel *vyf-en-twintig* van die „Besproeiings- en Waterbewarings Wet, 1912” (Wet No. 8 van 1912), tot 'n dolomiet-geologiese gebied verklaar is, word geag kragtens hierdie artikel 'n ondergrondse waterbeheergebied verklaar te gewees het.

Vermoede ten opsigte van ondergrondse water.

29. Alle ondergrondse water word, totdat die teendeel bewys word, geag in bepaalde kanale voor te kom of daarin te vloei.

Gebruik van ondergrondse water.

30. (1) 'n Eienaar van grond is behoudens die bepalings van sub-artikel (2), geregtig om ondergrondse water daaronder vir sy eie gebruik vir enige doel op daardie grond uit te haal of te verkry.

(2) Die Minister kan met betrekking tot 'n ondergrondse waterbeheergebied die regulasies uitvaardig wat hy nodig ag om beheer uit te oefen oor die maak van boorgate ten einde water vir gebruik vir enige doel te verkry, die grawe van putte en die uithaal, beskerming teen besoedeling en bewaring van ondergrondse water wat in daardie gebied voorkom, met inbegrip van regulasies om die aantal boorgate of putte wat in so 'n gebied gemaak mag word of die hoeveelheid water wat deur middel van 'n boorgat of put hetsy voor of na die inwerkingtreding van hierdie Wet gemaak, geneem mag word, te beperk, of om die maak

(2) The storage or detention of public water or the use of public water for the flooding of veld, in so far as may be reasonably necessary in connection with any soil conservation work authorized in terms of the Soil Conservation Act, 1946 (Act No. 45 of 1946), shall not be deemed to constitute unbeneficial storage, detention or use of such water: Provided that the Minister may, in respect of any public stream, by notice in the *Gazette* prescribe such specifications and conditions subject to which any soil conservation works may be constructed, as he may consider necessary to ensure that public water will not be wastefully stored or detained or used for the flooding of veld to the prejudice of lower riparian owners or any owner of a water work in respect of which protection was prior to the commencement of the Irrigation Amendment Act, 1934, granted under section *fifteen* or *sixteen* of the Irrigation and Conservation of Waters Act, 1912.

(3) Any person who fails to comply with any specifications or conditions prescribed in terms of sub-section (2) shall be guilty of an offence.

26. The Minister may make regulations relating to—

- (a) the form of application for permits under section *twelve* and the particulars to be furnished in connection with any such application or under paragraph (a) of sub-section (1) of section *twelve*;
- (b) the form of any application under sub-section (5) of section *twenty-one*, and the particulars to be furnished in connection with any such application;
- (c) the prevention of wastage or pollution of public or private water, including underground water, and the powers and duties of persons appointed to exercise control in respect thereof;
- (d) generally, any other matter which he considers it necessary or expedient to prescribe in order that the objects of sections *twenty-one* to *twenty-four*, inclusive may be achieved.

Regulations as to permits and control of pollution of water.

CHAPTER III.

CONTROL AND USE OF SUBTERRANEAN WATER AND WATER FOUND UNDERGROUND.

27. In this Chapter "subterranean water" means such water naturally existing underground, or abstracted therefrom as is contained within the areas declared to be subterranean water control areas under section *twenty-eight*.

Definition of subterranean water.

28. (1) The Governor General may from time to time by proclamation in the *Gazette* declare any area defined in the proclamation to be a subterranean water control area if the Minister is of the opinion that such area is a dolomite or artesian geological area or that the abstraction of water naturally existing underground in such area may result in undue depletion of its underground water resources, and may in like manner withdraw or amend such proclamation.

Governor-General may proclaim subterranean water control areas.

(2) Any area which has in terms of section *twenty-five* of the Irrigation and Conservation of Waters Act, 1912 (Act No. 8 of 1912), been declared to be a dolomitic geological area shall be deemed to have been declared to be a subterranean water control area under this section.

29. All subterranean water shall, until the contrary is proved, be presumed to be contained in or to flow in defined channels.

Presumption in respect of subterranean water.

30. (1) Subject to the provisions of sub-section (2), an owner of land is entitled to abstract or obtain any subterranean water thereunder for his own use for any purpose on such land.

Use of subterranean water.

(2) The Minister may in relation to any subterranean water control area, make such regulations as he may deem necessary for exercising control over the drilling of boreholes for the purpose of locating water for use for any purpose, the sinking of wells and the abstraction, protection against pollution and preservation of subterranean water contained in such area, including regulations limiting the number of boreholes or wells which may be sunk in any such area or the quantity of water which may be abstracted by means of any borehole or well, whether sunk before or after the commencement of this Act,

van sodanige boorgate of putte te verbied behalwe met toestemming van die Minister of iemand wat op sy gesag handel, en onderworpe aan die voorwaardes wat hy mag bepaal.

(3) 'n In sub-artikel (1) bedoelde eienaar mag nie sonder 'n permit kragtens sub-artikel (5) deur die Minister uitgereik, ondergrondse water wat hy ooreenkomstig sub-artikel (1) uitgehaal of verkry het, aan enigiemand vir gebruik op ander grond verkoop, gee of andersins van die hand sit of sodanige water nadat dit aldus uitgehaal of verkry is, vir sy eie gebruik oor die grense van sy grond vervoer nie.

(4) (a) Die eienaar van 'n myn waar mynbouwerkzaamhede wettiglik gedryf word, kan uit die myngebied enige ondergrondse water verwyder waarvan die verwydering vir die doeltreffende voortsetting van bedoelde mynbouwerkzaamhede of die veiligheid van daarby werksame persone nodig is, en kan, tensy die Minister anders gelas, sodanige water by daardie mynbouwerkzaamhede of vir daaraan verbonde huishoudelike doeleindes gebruik, en kan kragtens 'n permit van die Minister daardie water vir ander doeleindes gebruik of daardie water verkoop, gee of verruil of andersins daarvoor beskik.

(b) So 'n eienaar wat sodanige water nie aldus gebruik, verkoop, gee of verruil nie, moet daarvoor beskik op die wyse wat die Minister gelas.

(5) Die Minister kan, onderworpe aan die voorwaardes wat hy goedvind—

(a) op aansoek van 'n in sub-artikel (1) bedoelde eienaar aan daardie eienaar 'n permit uitreik wat aan hom die reg verleen om ondergrondse water ingevolge daardie sub-artikel deur hom uitgehaal of verkry, vir sy eie gebruik oor die grense van die grond waarop dit uitgehaal of verkry is, te vervoer, of om sodanige water aan 'n ander persoon vir gebruik op ander grond te verkoop, te gee of andersins van die hand te sit; of

(b) op aansoek van die eienaar van 'n myn in sub-artikel (4) bedoel, aan daardie eienaar 'n permit uitreik wat aan hom die reg verleen om ondergrondse water wat ingevolge daardie sub-artikel uit bedoelde myn verwyder is, te gebruik, te verkoop, te gee, te verruil of andersins daarvoor te beskik.

(6) Ondanks die bepalings van hierdie Hoofstuk, kan die Minister ondergrondse water wat deur die Regering uitgehaal of verkry is, aan enige persoon vir gebruik op enige grond vir 'n deur die Minister gemagtigde doel vervoer en voorsien, hetsy bedoelde water uitgehaal of verkry is op grond wat aan die Unie-regering behoort of op ander grond: Met dien verstande dat geen water aldus uitgehaal of verkry, aldus deur die Minister vervoer of voorsien mag word nie indien dit gevind is op grond wat nie aan die Regering behoort nie, tensy die Regering 'n reg op sodanige water verkry het by wyse van ooreenkoms met die eienaar van daardie grond of uit hoofde van 'n onteiening ooreenkomstig artikel *sestig*.

Registrasie van private water-boorkontrakteurs.

31. (1) Enigiemand wat deur middel van waterboormasjiene of ander toestelle wat gebruik word om boorgate te maak, op enige grond boorgate maak ten einde water te kry, moet binne drie maande na die inwerkingtreding van hierdie Wet of, indien hy so 'n masjien of toestel op 'n datum na die inwerkingtreding van hierdie Wet begin gebruik, binne een maand na die datum waarop hy aldus daarvan begin gebruik maak, die direkteur van sy volle naam, sy permanente adres en besonderhede betreffende die tipe en fabrikaat van bedoelde waterboormasjiene of toestel in kennis stel.

(3) Pending the determination of such an appeal, the judge who presided over the water court which granted the order or award in respect of which such appeal is pending or, if such judge is not available, any other judge attached to the same division of the Supreme Court of South Africa or, in the case of the South-West Africa Water Court, of the High Court of South-West Africa, shall have power to grant a stay of execution in whole or in part of such order or award upon such terms and conditions as to him appear just.

50. (1) The parties to any dispute concerning the use, diversion or appropriation of water, may in writing agree to submit the matter in dispute for final decision to a water court, and thereupon any order or award made by the water court in regard to the matter in question shall be binding upon the said parties and shall not be subject to appeal to any court. Agreement to accept decision of water court as final, and settlements during proceedings.

(2) If the parties to a dispute which is the subject of proceedings before a water court arrive at a settlement during the course of such proceedings, the water court may make such settlement an order of court, provided the water court is satisfied that the settlement is clear and comprehensible and that the terms thereof are reasonable and are not in conflict with any provision of this Act.

51. (1) Any order or award of a water court affecting rights to water which is final and which is not subject to appeal, or as to which no appeal has been noted within the prescribed time, or as to which an appeal has been noted but has not been prosecuted or has been dismissed, or any order or award made upon appeal to the Appellate Division of the Supreme Court under this Act shall, if the water court or the said Appellate Division, as the case may be, so directs, upon production of the said order or award, be registered by the registrar of deeds in charge of the deeds registry concerned against the title deed Registration of orders and awards against title deeds of land concerned.

enige grond waarop die bevel of toekenning betrekking het, geregistreer en in die gepaste registers aangeteken word, en die eienaar van sodanige grond moet vir die doel sy titelbewys oorlê.

(2) Die koste van bedoelde registrasie word betaal deur een of ander party by die verrigtings ingevolge waarvan daardie bevel of toekenning uitgevaardig of gedoen is, na gelang die waterhof of genoemde Appèlafdeling mag gelas.

(3) Indien die titelbewys van sodanige grond nie geredelik vir registrasiedoeleindes oorgelê kan word nie, moet die betrokke registrateur van aktes daardie bevel of toekenning op die duplikaat-titelbewys wat in sy registrasiekantoor gehou word en in die gepaste registers in daardie registrasiekantoor aanteken, en geen verdere transaksie betreffende bedoelde grond mag geregistreer word nie tot tyd en wyl die registrasie van bedoelde bevel of toekenning deur endossement daarvan op die titelbewys geskied het, en genoemde registrateur van aktes word hierby gemagtig om op bedoelde titelbewys beslag te lê en die nodige endossement daarop aan te bring wanneer dit om enige rede by sy registrasiekantoor ingedien word.

Oorwegings in ag geneem te word by bepaling van 'n eienaar se deel van openbare water.

52. (1) By die bepaling van 'n oewereienaar se deel van die normale stroming van 'n openbare stroom by die toepassing van sub-artikel (1) van artikel *nege*, moet 'n waterhof in ag neem—

- (a) die aard van die grond wat besproei gaan word;
- (b) die betreklike oppervlaktes van die besproeibare grond op die onderskeie stukke grond wat die onderwerp van oorspronklike toekennings was en waarvan die eienaars tot die gebruik van water van die openbare stroom waaraan sodanige grond oewergrond is, geregtig is;
- (c) enige natuurlike waterbronne op bedoelde onderskeie stukke grond, uitgesonderd water van die betrokke openbare stroom verkry;
- (d) dat die hoeveelheid water wat redelikerwys vir landbou-doeleindes gebruik kan word, tussen die betrokke oewereienaars gereël behoort te word volgens die hoeveelheid water wat in die stroom vloei;
- (e) die diepte van die water benodig per eenheid besproei-bare grond vir die voordelige besproeiing van daardie grond;
- (f) enige ander aangeleenthede wat hy nodig ag ten einde tot 'n redelike verdeling van die betrokke water te kan geraak:

Met dien verstande dat by die toepassing van die oorweging in paragraaf (b) bedoel, 'n waterhof nie, vir die verdeling van die normale stroming van 'n openbare stroom, 'n groter oppervlakte besproei-bare grond op enige in daardie paragraaf bedoelde stuk grond in aanmerking neem nie as 'n oppervlakte wat hy in verhouding ag tot die totale oppervlakte grond wat besproei sou kon word indien die totale hoeveelheid water wat gewoonlik vir verdeling beskikbaar is aan daardie stuk grond toegeken sou word.

(2) By 'n beslissing oor 'n aansoek ingevolge artikel *negentien*, moet 'n waterhof in aanmerking neem—

- (a) die jaarlikse reënval in die gebied waar die applikant se grond geleë is;
- (b) die aantal kere wat die betrokke openbare stroom waarskynlik gedurende 'n gemiddelde jaar sal vloei;
- (c) die verdamping in die betrokke gebied;
- (d) die diepte van water benodig per eenheid besproei-bare grond vir die voordelige besproeiing van sodanige grond;
- (e) die hoeveelheid water wat onder die omstandighede redelikerwys opgegaan behoort te word om oeste te verkry of vir die ander doeleindes in sub-artikel (1) van artikel *tien* beskryf;
- (f) enige natuurlike waterbronne op die betrokke grond afgesien van water wat van die betrokke openbare stroom verkry word; en
- (g) enige ander aangeleenthede wat hy nodig ag ten einde tot 'n regverdige beslissing in die saak te kan geraak.

(3) Geen oewereienaar is geregtig om meer water, hetsy normale stroming of surpluswater, vir landbou- of stedelike doeleindes na sy oewergrond uit te keer, of op te dam en op te gaan nie, as wat hy redelikerwys verwag kan word om vir sodanige doeleindes te gebruik, en die hoeveelheid water aldus uitgekeer of opgedam en opgegaan, mag nie meer wees as wat nodig is om daardie water op doeltreffende en ekonomiese wyse vir sodanige doeleindes aan te wend nie.

of any land to which the order or award refers and recorded in the appropriate registers, and the owner of any such land shall produce his title deeds for the purpose.

(2) The cost of such registration shall be borne by one or other of the parties to the proceedings in pursuance of which such order or award was made, as the water court or the said Appellate Division may direct.

(3) If the title deed of any such land cannot readily be produced for purposes of registration, the registrar of deeds concerned shall note the said order or award on the duplicate title deed filed in his registry and in the appropriate registers in that registry, and no further transaction relating to the said land shall be registered until registration of the said order or award has been completed by endorsement thereof on the title deed, and the said registrar of deeds is hereby authorized to impound the said title deed and to make the necessary endorsement thereon whenever it may for any reason be lodged in his registry.

52. (1) In determining a riparian owner's share of the normal flow of a public stream for the purposes of sub-section (1) of section *nine*, a water court shall take into consideration—

Considerations to be applied in determining an owner's share of public water.

- (a) the nature of the soil which is to be irrigated;
- (b) the comparative extents of irrigable land on the respective pieces of land which formed the subject of original grants, the owners of which are entitled to the use of the water of the public stream to which such land is riparian;
- (c) any natural sources of water supply on the said respective pieces of land other than that derived from the public stream in question;
- (d) that the quantity of water which may reasonably be used for agricultural purposes should be regulated as between the riparian owners concerned according to the quantity of water flowing in the stream;
- (e) the depth of water required per unit of irrigable land for the beneficial irrigation of such land;
- (f) any other features which it considers necessary in order to arrive at a fair apportionment of the water in question:

Provided that, in applying the consideration described in paragraph (b), a water court shall not, for the purpose of apportioning the normal flow of a public stream, take into account a greater area of irrigable land on any piece of land referred to in the said paragraph than an area which it deems to be commensurate with the total area of land which might be irrigated if the total quantity of the water ordinarily available for apportionment were allotted to such piece of land.

(2) In adjudicating upon any application made in terms of section *nineteen* a water court shall take into consideration—

- (a) the annual rainfall in the area in which the applicant's land is situated;
- (b) the number of times during an average year that the public stream in question is likely to flow;
- (c) the evaporation in the area in question;
- (d) the depth of water required per unit of irrigable land for the beneficial irrigation of such land;
- (e) the quantity of water which, under the circumstances, should reasonably be stored for the purpose of obtaining crops or for such other purposes as are described in sub-section (1) of section *ten*;
- (f) any natural sources of water supply on the land affected other than that derived from the public stream in question; and
- (g) any other features which it considers necessary in order to arrive at a just decision in the matter.

(3) No riparian owner shall be entitled to divert on to his riparian land or to impound and store for use for agricultural or urban purposes more water, whether normal flow or surplus water, than he can reasonably be expected to use for such purposes, and the quantity of water so diverted or impounded and stored shall not be greater than is required to apply such water efficiently and economically to such purposes.

(4) Onvoordelige besproeiing van veld deur dit dikwels en buitensporig te laat oorstroom, of die lei van openbare water op of in plekke soos brak panne, holtes, moerasse of ander plekke waaruit geen voordeel getrek sal word nie, word geag onredelike gebruik van water te wees.

(5) Geen water van 'n openbare stroom mag vir die besproeiing van veld aangewend word nie voordat alle besproeibare grond wat oewergrond aan bedoelde stroom is en wat bewerk word en deur middel van bestaande werke van sodanige water voorsien kan word, voldoende water vir redelike vereistes ontvang het: Met dien verstande dat die bepalings van hierdie subartikel nie so uitgelê word nie dat dit die besproeiing van weiveld in enige gebiede waar 'n grondbewaringsplan kragtens die Grondbewaringswet, 1946 (Wet No. 45 van 1946), in werking is, vir sover nodig om weiding vir vee- of suiwelboerderydoeleindes te voorsien, belet nie.

Oorwegings by bepaling van normale stroming onder wisselende toestande.

53. (1) By die bepaling van die normale stroming van 'n openbare stroom, moet 'n waterhof dit doen op die wyse wat die geskikste is met die oog op die omgewing en die heersende plaaslike omstandighede ten opsigte van die seisoenvloei van bedoelde stroom, die klimaatsinvloede en die metodes en vereistes van besproeiing, en, behoudens die bepalings van subartikels (2) en (3), enige ander aangeleenthede in aanmerking neem wat hy in die omstandighede van elke besondere geval nodig ag ten einde tot 'n regverdige en billike bepaling te kan geraak.

(2) 'n Openbare stroom word nie geag 'n normale stroming te hê nie, tensy 'n gedeelte van die werklike en sigbare stroming van fonteine, sypling van enige aard, insluitende terugsypling van besproeide grond, smeltende sneeu, die gestadige dreinerings van moerasse, vleie, natuurlike of inheemse bosse of ander dergelike bronne verkry word.

(3) Ten opsigte van enige openbare stroom in die provinsie Kaap die Goeie Hoop, wat ingevolge een of ander wet deur 'n bevoegde hof standhoudend verklaar is, word die normale stroming op enige punt langs die loop van daardie stroom deur 'n waterhof op so 'n diepte of volume vasgestel as wat sal verseker dat 'n toereikende hoeveelheid water na laer oewer-eienaars sal afloop om aan die vereistes betreffende redelike gebruik van al die watervore en ander direkte besproeiingsmiddels binne die grense langs die loop van bedoelde stroom waarbinne 'n verdeling tevore gedoen is, of aan die redelike vereistes van alle besproeibare grond benede genoemde punt wat vir sodanige vereistes afhanklik is van water wat by daardie punt verby vloei, te voldoen.

Prosedure deur waterhof in ag geneem te word.

54. Die prosedure van 'n waterhof is volgens die bepalings van hierdie Wet en regulasies kragtens artikel *vyf-en-vyftig* uitgevaardig: Met dien verstande dat waar onder besondere omstandighede geen sodanige bepalings of regulasies bestaan wat van toepassing is nie, 'n waterhof handel op die wyse en volgens die beginsels wat hy die geskikste ag om wesenlik reg te laat geskied en die oogmerke en bepalings van hierdie Wet uit te voer.

Waterhof-regulasies.

55. Die Minister kan regulasies uitvaardig betreffende—

- (a) die prosedure in waterhowe, met inbegrip van die prosedure wat in verband met die registrasie van bevele of toekennings ingevolge artikel *een-en-vyftig* en van serwitute ingevolge artikel *honderd een-en-vyftig* gevolg moet word;
- (b) die gelde wat in waterhowe gevorder kan word en die toelaes betaalbaar aan die lede daarvan wat nie in die voltydse diens van die Staat is nie;
- (c) die aanstelling van 'n registrateur en ander amptenare van 'n waterhof;
- (d) die vorms en bestelling van kennisgewings en ander dokumente wat ingevolge hierdie Wet in verband met verrigtings in 'n waterhof gegee of bestel moet word; en
- (e) in die algemeen enige ander aangeleenthede wat hy nodig of dienstig ag om voor te skryf vir sover dit die funksionering van waterhowe betref.

(5) No water of any public stream shall be used for the irrigation of veld until all the irrigable land which is riparian to such stream and which is being cultivated and is capable of being supplied with such water by means of existing works has received sufficient water to meet reasonable requirements: Provided that the provisions of this sub-section shall not be construed as precluding the irrigation of pasture land in any area in which a soil conservation scheme is in operation in terms of the Soil Conservation Act, 1946 (Act No. 45 of 1946), in so far as may be necessary for the purpose of providing grazing required for stock or dairy farming purposes.

53. (1) In determining the normal flow of a public stream, a water court shall do so in a manner best suited to the locality and to the local conditions pertaining in respect of the seasonal flow of such stream, the climatic influences and the methods and requirements of irrigation and, subject to the provisions of sub-sections (2) and (3), shall take into consideration any other features which it considers necessary in the circumstances of each particular case in order to arrive at a just and equitable determination.

Considerations in determining normal flow under varying conditions.

(2) A public stream shall not be deemed to have a normal flow unless a portion of the actual and visible flow is derived from springs, seepage of any kind, including return seepage from irrigated land, melting snow, the steady drainage from swamps, vleis, natural or indigenous forests, or other like sources of supply.

(3) In respect of any public stream in the Province of the Cape of Good Hope which has under any law been declared by a competent court to be perennial, the normal flow at any point along the course of such stream shall be fixed by a water court at such depth or volume as will ensure that a sufficient volume of water will flow down to lower riparian owners to satisfy the requirements as to reasonable use of all the water furrows and other direct means of irrigation within the limits along the course of such stream within which a distribution has previously been made, or to satisfy the reasonable requirements of all irrigable land below the said point which is dependent for such requirements upon water passing such point.

54. The procedure of a water court shall be in accordance with the provisions of this Act and regulations made under section *fifty-five*: Provided that if there be no such provisions or regulations applicable in any particular circumstances, a water court shall act in such manner and on such principles as it shall deem best fitted to do substantial justice and to carry out the objects and provisions of this Act.

and may, if he deem fit, at the same time or at any time thereafter determine the portion of any such piece of land or of the land belonging to any such owner which may be so irrigated.

(3) The Minister may from time to time vary any determination made under this section or make fresh determinations whenever alterations in the area to which any such determination relates or in the ownership of the land in any such area have taken place, or whenever in his opinion the available water is not sufficient for the proper irrigation of all the land in respect of which water is in terms of any such determination required to be supplied, or temporarily reduce the extent of the land (included in any piece of land or belonging to any owner) which may be irrigated whenever there is a temporary shortage of water, or vary any determination made in respect of any land scheduled under sub-paragraph (v) of paragraph (a) of sub-section (7) which in his opinion has become brak or is in danger of becoming brak or is otherwise unfit to be irrigated, so that the use of water thereon for irrigation purposes may result in the unbeneficial use or waste of such water or may cause other land to become brak or otherwise unfit to be irrigated.

(4) 'n Bepaling kragtens hierdie artikel gemaak of 'n wysiging van so 'n bepaling moet by kennisgewing in die *Staatskoerant* en in 'n nuusblad in omloop in die gebied waarop daardie bepaling betrekking het, bekendgemaak word, en is van krag vanaf die datum van publikasie van die kennisgewing.

(5) Wanneer in 'n gebied waarin 'n bepaling van krag is, 'n watertekort ondervind word of na verwagting ondervind sal word, kan die Minister, in plaas van die oppervlakte wat volgens daardie bepaling besproei mag word, te verminder, bedoelde bepaling tydelik opskort en enige water vir voorsiening en verdeling in daardie gebied beskikbaar, toewys op die wyse wat hy goedvind.

(7) (a) Wanneer die Minister kragtens sub-artikel (2) 'n bepaling gemaak het, moet hy ten opsigte van die betrokke gebied 'n lys laat opstel waarin uiteengesit word—

(i) 'n beskrywing van elke stuk grond in daardie gebied ten opsigte waarvan water voorsien moet word;

(ii) die omvang van elke sodanige stuk grond;

(iv) die naam van die eienaar van daardie stuk grond;

(v) die omvang van die grond wat deel uitmaak van daardie stuk grond, ten opsigte waarvan water uit genoemde waterwerk voorsien kan word of, al na die geval, die omvang van die grond, waarvan enigiemand die eienaar is, ten opsigte waarvan water aldus voorsien kan word; en

(vi) die omvang van enige grond in daardie gebied wat vir nedersettingsdoeleindes bestem is, maar nog nie as hoewes toegewys is nie.

(b) Tensy die Minister anders gelas, word 'n lys volgens hierdie sub-artikel opgestel, jaarliks hersien, en enige wysigings van tyd tot tyd aan enigeen van die in paragraaf (a) vermelde items aangebring, moet, behoudens die bepalings van artikel *vier-en-sestig*, by die hersiening in bedoelde lys weerspieël word.

(c) Enige lys wat voor die inwerkingtreding van hierdie Wet kragtens artikel *sewe bis* van die „Besproeiings- en Waterbewarings Wet, 1912”, opgestel heet te wees, word geag 'n lys te wees wat behoorlik ooreenkomstig die bepalings van hierdie artikel opgestel is.

(8) (a) Indien 'n vermeerdering plaasvind in die aantal individuele persone geregtig om water wat, ingevolge 'n bepaling kragtens hierdie artikel gemaak of geag gemaak te gewees het, ten opsigte van enige grond verskaf moet word, vir besproeiingsdoeleindes te gebruik, en die omvang van die grond wat deel van daardie grond uitmaak en ten opsigte waarvan in die geval van elkeen van daardie persone aldus water verskaf sou moes word indien al daardie persone geregtig was om van water voorsien te word ten opsigte van gelyke gedeeltes van die oppervlakte ten opsigte waarvan water aldus voorsien moet word, minder as twintig morg is, hou die stuk grond waarvan daardie grond deel uitmaak of, al na die geval, die totale oppervlakte van die grond in die betrokke Staatswaterbeheergebied wat aan die betrokke eienaar behoort, op om deel uit te maak van grond wat deur middel van water uit die betrokke Staatswaterwerk besproei kan word, en word dit uitgesluit van die lys volgens sub-artikel (7) opgestel ten opsigte van die gebied aldus besproei te word, tot tyd en wyl die Minister op aanbeveling van die sentrale landraad anders gelas.

(b) By die toepassing van paragraaf (a) word elke lid van 'n vennootskap of 'n liggaam, hetsy met regspersoonlikheid beklee al dan nie, uitgesonderd 'n publieke maatskappy wat kragtens die Maatskappywet, 1926 (Wet No. 46 van 1926), as sodanig geregistreer is, wat geregtig is om water vir besproeiingsdoeleindes te gebruik, geag 'n individuele persoon te wees wat geregtig is om bedoelde water vir daardie doeleindes te gebruik.

(4) Any determination made under this section or any variation of such a determination shall be made known by notice in the *Gazette* and in a newspaper circulating in the area to which such determination relates, and shall be in force as from the date of publication of such notice.

(6) The Minister may, upon the application of an owner of any piece of land scheduled under sub-paragraph (v) of paragraph (a) of sub-section (7), and on such terms and conditions as the Minister may stipulate, permit the use of the water available in respect of that land upon any other piece of land in the area affected.

(c) Any schedule purporting to have been prepared under section *seven bis* of the Irrigation and Conservation of Waters Act, 1912, prior to the commencement of this Act, shall be deemed to be a schedule duly prepared in accordance with the provisions of this section.

(8) (a) If there is an increase in the number of individual persons entitled to use for irrigation purposes any water required to be supplied in respect of any land in pursuance of a determination made or deemed to have been made under this section, and the extent of the land forming part of that land in respect of which water would be so required to be supplied in the case of each such person if all such persons were entitled to be supplied with water in respect of equal portions of the area in respect of which water is so required to be supplied, is less than twenty morgen, the piece of land of which such land forms a part, or the total extent of land in the Government water control area in question belonging to the owner concerned, as the case may be, shall, until such time as the Minister on the recommendation of the central land board otherwise directs, cease to form part of an area of land to be irrigated by means of water from the Government water work in question, and shall be excluded from the schedule prepared under sub-section (7) in respect of the area to be so irrigated.

- (b) if the applicant is an irrigation board, the extent to which the rates leviable by the board under this Act or any assets of the board have already been charged or hypothecated and the persons in whose favour the charges or hypothecations exist.

(2) Where the amount of any such loan does not exceed nine hundred pounds, detailed plans and specifications shall not be required, except as provided in sub-section (3), but sufficient information shall be furnished to enable the Minister to test the value of the scheme from a technical, agricultural and financial point of view.

(3) If the amount of the proposed loan exceeds nine hundred pounds or the enhanced value of the land arising from the proposed work forms part of the security offered, the application shall be accompanied by a report, plans, specifications and estimates of the cost of the proposed works and such other documents as may be prescribed by regulation, and, in the case of an application by an irrigation board, by a statement of the existing liabilities of the board and an account of its revenue and expenditure under appropriate heads.

(4) In the case of any such application by an irrigation board, the chairman thereof shall certify that the provisions of sub-section (2) of section *ninety-three* have been complied with in every respect.

154. (1) Where the Government has before or after the commencement of this Act, lent or undertaken to lend any amount not exceeding two hundred and fifty pounds to an owner of land for the construction of a water work, or an owner of land has before or after such commencement, assumed liability for any part of the cost incurred or to be incurred by the Government in sinking a borehole for such owner on such land, the Minister may in writing direct the registrar of deeds in charge of the deeds registry in which the title to that land is registered, to note, free of charge, the loan or liability on the title deed of that land and in the appropriate registers in that registry.

Creation of charge on land for certain loans and for moneys spent on boreholes.

(2) The document conveying that direction shall be accompanied by the owner's title deed to the land in question and shall set forth—

- (a) a description of the land in question and the number and date of its title deed;
- (b) the name of the owner of such land;
- (c) the total amount of the loan or liability to be noted;

(3) The making of such a note on the title deed of land shall create a charge upon the land of the amount noted and any interest due thereon, which shall remain attached to the land on transfer thereof and shall bind every successive owner thereof.

(4) Any such charge shall be redeemed within a period not exceeding twenty years and in such equal instalments as the Minister has determined: Provided that any owner of the land to which the charge attaches, may at any time redeem the charge entirely by the payment of an amount equal to the unredeemed portion of the charge, after deduction therefrom of any interest included therein for the unexpired part of the said period.

(5) No individual portion of any piece of land which is subject to any such charge may be transferred (whether on partition or otherwise) except with the Minister's consent, and

Minister, en die Minister bepaal in so 'n geval watter aandeel van die las aan elke gedeelte van die grond toegewys moet word, en die betrokke registrateur van aktes moet ooreenkomstig so 'n toewysing die nodige aantekeninge gratis op die betrokke titelbewyse en in die gepaste registers aanbring op die wyse waarop die oorspronklike aantekening gemaak was, en daarop is elke bedoelde gedeelte belas asof die aantekening oorspronklik op die titelbewys daarvan vir die aldus toegewese bedrag gemaak was.

(6) Indien 'n paaielement ten opsigte van die las verskuldig meer as drie maande agterstallig is, kan die Minister die verskuldigde paaielement of die volle bedrag wat die eenaar volgens sub-artikel (4) of (5) sou moes betaal om die las geheel en al af te los op die betrokke eenaar verhaal, en hy kan daardie volle bedrag insgelyks verhaal indien die eenaar in gebreke gebly het om aan enige voorwaarde van die lening of aanspreeklikheid waarop bedoelde las betrekking het, te voldoen.

(7) Wanneer 'n las wat ingevolge hierdie artikel geskep is, ten volle afgelos is, moet die Minister daarvan skriftelik kennis gee aan die betrokke registrateur van aktes wat daarop die betrokke aantekeninge rojeer.

Sekuriteit vir besproeiingslenings.

155. (1) 'n Besproeiingslening word nie aan 'n ander grondeenaar as 'n besproeiingsraad toegestaan nie, behalwe—

(a) in die geval van so 'n lening (uitsluitende rente wat opgeloopt het of mag ooploop) wat meer as tweehonderden-vyftig pond bedra, teen sekuriteit van 'n verband op vasgoed; en

(b) in die geval van so 'n lening (uitsluitende rente wat opgeloopt het of mag ooploop) wat meer as tweeduisend vyfhonderd pond bedra, teen sekuriteit van 'n eerste verband op vasgoed,

en die Minister kan ook in die geval van so 'n lening wat nie tweehonderden-vyftig pond oorskry nie, sekuriteit in die vorm van 'n verband op sodanige goed verlang.

(2) (a) Die Minister aanvaar geen verband op vasgoed as sekuriteit vir 'n besproeiingslening nie, tensy die bedrag van die aangevraagde lening, tesame met enige bedrag waarvoor die eiendom reeds verhipoteker is, minder is as twee-derdes van die waarde van die vasgoed soos vir die doel bepaal deur 'n persoon kragtens sub-artikel (1) van artikel *sewentig* van die Landbankwet, 1944 (Wet No. 13 van 1944), aangestel, of na goeddunke van die Minister deur een of meer beëdigde taksateurs of deur 'n raad wat die Goewerneur-generaal aangestel het om grond te waardeer: Met dien verstande dat die Minister na goeddunke by sodanige waarde 'n bedrag kan byvoeg wat nie die bedrag deur die Minister geraam as die koste van die voorgestelde werk te bowe gaan nie, waarmee die waarde van bedoelde goed sal toeneem as gevolg van die bedoelde werk ten opsigte waarvan die lening benodig word, en in so 'n geval word bedoelde waarde tesame met die bedrag aldus bygevoeg, by die toepassing van hierdie sub-artikel geag die waarde van die betrokke goed te wees.

(b) Die koste van enige waardebepaling ingevolge paragraaf (a) moet deur die applikant om die betrokke lening betaal word.

(3) Die sekuriteit ten opsigte van 'n besproeiingslening aan 'n besproeiingsraad is die belastinge en vorderings wat deur daardie raad ingevolge hierdie Wet gehef kan word, of die ander sekuriteit wat deur die Minister goedgekeur mag word.

Ondersoek van aansoeke om lenings.

156. Indien die Minister by ontvangs van 'n aansoek om 'n besproeiingslening met die aangebode sekuriteit tevrede is, moet hy 'n raming van die waarskynlike koste van die werk ten opsigte waarvan daardie lening benodig word, laat maak en ondersoek laat instel omtrent die vraag of die voorgestelde werke 'n verbetering in die jaarlikse inkomste wat van die grond verkry kan word, sal aanbring wat meer sal wees as die bedrag wat jaarliks ter delging van die lening betaalbaar sal wees, indien dit toegestaan word vir die grootste aantal jare waarvoor dit na sy mening toegestaan behoort te word, met inagneming van die aard en waarskynlike duursaamheid van die werke.

Bevoegdheid om besproeiingslenings toe te staan.

157. (1) By voltooiing van die ondersoek in artikel *honderd ses-en-vyftig* bedoel, kan die Minister die aansoek om die betrokke lening tesame met sy aanbeveling voorlê aan die Goewerneur-generaal, wat kan gelas dat 'n besproeiingslening vir so 'n bedrag en terugbetaalbaar binne so 'n tydperk as

the Minister shall in any such case determine what share of the charge shall be allocated to each portion of the land, and the registrar of deeds concerned shall make the necessary notes in accordance with such allocation, free of charge, on the relevant title deeds and in the appropriate registers, in the manner in which the original charge was noted, and thereupon each such portion shall be charged as if the note had originally been made on its title deed for the amount so allocated.

(6) If any instalment due under the charge is in arrear for more than three months, the Minister may recover from the owner concerned the instalment due or the full amount which the owner would have to pay in terms of sub-section (4) or (5) in order to redeem the charge entirely, and he may in like manner recover that full amount if the owner has failed to comply with any condition of the loan or liability to which the charge relates.

(7) Whenever a charge created under this section has been redeemed in full, the Minister shall in writing notify the registrar of deeds concerned, who shall thereupon cancel the relevant notes.

155. (1) An irrigation loan shall not be granted to an owner of land other than an irrigation board, except—

Security for irrigation loans.

- (a) in the case of any such loan (excluding interest which has accrued or may accrue) exceeding two hundred and fifty pounds, upon the security of a mortgage of immovable property; and
- (b) in the case of any such loan (excluding interest which has accrued or may accrue) exceeding two thousand five hundred pounds, upon the security of a first mortgage of immovable property,

and the Minister may also, in the case of any such loan which does not exceed two hundred and fifty pounds, require security in the form of a mortgage upon such property.

(2) (a) The Minister shall not accept a mortgage on immovable property as security for an irrigation loan unless the amount of the loan applied for, together with any amount for which the property is already hypothecated, is less than two-thirds of the valuation of the property made for the purpose by a person appointed under sub-section (1) of section *seventy* of the Land Bank Act, 1944 (Act No. 13 of 1944), or, in the discretion of the Minister, by one or more sworn appraisers or by a board nominated by the Governor-General for the purpose of valuing land: Provided that the Minister may in his discretion add to such valuation an amount, not exceeding the amount estimated by the Minister as the cost of the proposed work, by which the said property will be enhanced in value by the said work in respect of which the loan is required, and in such a case the said valuation together with the amount so added shall for the purposes of this sub-section be deemed to be the valuation of the property in question.

(b) The cost of any valuation made in terms of paragraph (a) shall be paid by the applicant for the loan in question.

(3) The security in respect of an irrigation loan to an irrigation board shall be the rates and charges leviable by such board under this Act or such other security as may be approved by the Minister.

156. If upon receipt of an application for an irrigation loan, the Minister is satisfied as to the security offered, he shall cause an estimate to be made of the probable cost of the work in respect of which such loan is required, and investigations to be made into the question whether the proposed works will effect an improvement in the annual income which may be derived from the land in excess of the amount which would be payable annually in redemption of the loan if it were granted for the greatest number of years for which it should in his opinion be granted, regard being had to the nature and probable durability of the works.

Investigation of applications for loans.

157. (1) Upon completion of the investigations referred to in section *one hundred and fifty-six*, the Minister may submit the application for the loan in question with his recommendation to the Governor-General, who may order that an irrigation loan for such amount and repayable within such period as the

Power to grant irrigation loans.

wat die Goewerneur-generaal mag bepaal, aan die applikant toegestaan word uit geld deur die Parlement vir die doel beskikbaar gestel, en die lening word dienooreenkomstig toegestaan: Met dien verstande dat—

(a) by die vasstelling van die tydperk van die lening, daar gelet moet word op die aard en waarskynlike duursaamheid van die werke soos deur die Minister bepaal;

(b) 'n besproeiingslening—

(i) terugbetaalbaar binne 'n tydperk van meer as dertig jaar; of

(ii) ten opsigte van waterwerke waarvan die totale raming (soos deur die Minister gedoen) van die koste by voltooiing as 'n selfstandige skema meer as dertigduisend pond bedra,

nie toegestaan word nie tensy sodanige lening by besluit van beide Huise van die Parlement goedgekeur is en, in die geval van 'n lening vir 'n in sub-paragraaf (ii) bedoelde waterwerk, 'n verslag oor die voorgestelde werk in beide bedoelde Huise ter Tafel gelê is.

(2) Die bepalings van sub-artikel (2) van artikel *agt-en-veertig* is *mutatis mutandis* van toepassing ten opsigte van 'n in paragraaf (b) van die voorbehoudsbepaling by sub-artikel (1) bedoelde verslag.

(3) 'n Sertifikaat deur die Minister dat die verlening van 'n besproeiingslening, hetsy voor of na die inwerkingtreding van hierdie Wet toegestaan, deur die Goewerneur-generaal gelas is, is afdoende bewys dat aan alle vereistes ten opsigte van daardie lening, hetsy ten opsigte van die behoorlike instelling van 'n besproeiingsdistrik of die behoorlike vorm van die aansoek om die lening of enige ander aangeleentheid hoegenaamd, wat die uitreiking van so 'n lasgewing voorafgaan of daarmee in verband staan, behoorlik nagekom is.

(4) Waar 'n besproeiingslening voor of na die inwerkingtreding van hierdie Wet aan 'n besproeiingsraad, met inbegrip van 'n in artikel *honderd-en-veertig* bedoelde sodanige raad, toegestaan is, word die lys van besproeibare en belasbare grond in die besproeiingsdistrik van daardie raad wat op die datum van die lasgewing vir die lening bestaan, vir alle doeleindes as 'n behoorlik en wettiglik opgestelde lys aanvaar.

Uitbetaling van besproeiingslenings aan applikante.

158. Wanneer 'n besproeiingslening toegestaan is, kan die direkteur na goeddunke en op die voorwaardes wat hy goedvind onverwyld 'n bedrag van hoogstens een-veertigste van die totale bedrag van die lening aan die applikant laat betaal, en kan hy daarna van tyd tot tyd teen 'n sertifikaat van 'n ingenieur of ander bevoegde persoon betreffende die hoeveelheid en geraamde waarde van die werk wat gedoen is, die verdere paaiemente van die lening wat hy goedvind aan die applikant laat betaal: Met dien verstande dat die direkteur geen deel van 'n besproeiingslening voorskiet nie alvorens daar ooreenkomstig artikel *honderd vier-en-veertig* 'n aantekening op die titelbewys van die betrokke grond gemaak is of, na gelang van die geval, alvorens die applikant as sekuriteit vir die lening by die betrokke registrateur van aktes behoorlik 'n verband laat registreer het wat die eiendom, of die belastings en vorderings, na gelang van die geval, wat die applikant ingestem het om te verhipotekeer, spesiaal aan die Regering verhipotekeer.

Las op eiendom of belastings en vorderings en voorrang van besproeiingslenings.

159. (1) 'n Besproeiingslening teen sekuriteit van eiendom toegestaan, is 'n las op daardie eiendom, met voorrang bo enige ander las as 'n tevore bestaande geregistreerde verband ten gunste van 'n persoon wat nie tot die voorrang van daardie lening ingestem het nie.

(2) 'n Besproeiingslening wat aan 'n besproeiingsraad gemaak is teen die sekuriteit van belastings en vorderings wat deur sodanige raad ingevolge hierdie Wet hefbaar is, is 'n las teen daardie belastings en vorderings met voorrang bo alle ander lenings, laste of voorskotte ten opsigte waarvan bedoelde belastings en vorderings ten gunste van 'n ander persoon verhipotekeer mag wees.

Delging van besproeiingslenings.

160. (1) Behoudens die bepalings van artikel *honderd een-en-sestig*—

(a) moet 'n besproeiingslening afgelos word deur die betaling, op die eerste dag van Januarie en die eerste dag van Julie in elke jaar, van een-helfte van die jaarlikse betaling vereis tot delging van die lening, ooreenkomstig 'n algemene skaal van tyd tot tyd deur die Minister vasgestel en in die *Staatskoerant* gepubliseer, en moet bedoelde betalings geskied totdat die hele lening met rente daarop terugbetaal is; en

Governor-General may determine, be made to the applicant out of moneys provided by Parliament for the purpose, and the loan shall be made accordingly: Provided that—

- (a) in fixing the period of the loan regard shall be had to the nature and probable durability of the works as determined by the Minister;
- (b) an irrigation loan—
 - (i) which is repayable within a period exceeding thirty years; or
 - (ii) in respect of any water works the total estimate (as made by the Minister) of the cost of which exceeds, when completed as an independent scheme, thirty thousand pounds,

shall not be granted unless such loan has been approved by resolution of both Houses of Parliament, and, in the case of a loan in respect of a water work referred to in sub-paragraph (ii), a report on the proposed work has been laid on the Tables of both such Houses.

(2) The provisions of sub-section (2) of section *fifty-eight* shall *mutatis mutandis* apply in respect of any report referred to in paragraph (b) of the proviso to sub-section (1).

(3) A certificate by the Minister that an irrigation loan, whether granted before or after the commencement of this Act, was ordered to be made by the Governor-General, shall be conclusive evidence that all requirements in respect of the said loan, whether in respect of the due constitution of an irrigation district or the due form of the application for the loan, or of any other matter whatsoever precedent or incidental to the issue of such order, have been duly complied with.

(4) Where an irrigation loan has before or after the commencement of this Act, been granted to an irrigation board, including any such board referred to in section *one hundred and five*, the schedule of the irrigable and rateable land within the irrigation district of that board existing at the date of the ordering of the loan, shall for all purposes be accepted as a schedule properly and legally framed.

158. When an irrigation loan has been granted, the director may in his discretion and on such conditions as he may deem fit forthwith cause to be paid to the applicant an amount not exceeding one-fifth of the total amount of the loan, and may thereafter from time to time, upon a certificate by an engineer or other competent person as to the quantity and estimated value of the work done, cause to be paid to the applicant such further instalments of the loan as he deems fit: Provided that the director shall not advance any part of an irrigation loan until a note has been made on the title deed to the land in question in accordance with section *one hundred and fifty-four* or, as the case may be, until the applicant has passed before the registrar of deeds concerned a bond duly registered, specially hypothecating in favour of the Government as security for the loan, the property, or rates and charges, as the case may be, which the applicant has agreed to hypothecate.

Payment of irrigation loans to applicants.

159. (1) An irrigation loan made on the security of property shall be a charge upon that property, with priority over every other charge except a pre-existing registered mortgage bond in favour of a person who has not consented to the priority of the said loan.

(2) An irrigation loan made to an irrigation board on the security of the rates and charges leviable by such board under this Act shall be a charge on such rates and charges with priority over all other loans, charges or advances in respect of which the said rates and charges may have been hypothecated to any other person.

160. (1) Subject to the provisions of section *one hundred and sixty-one*—

Redemption of an irrigation loan.

- (a) an irrigation loan shall be redeemed by the payment, on the first day of January and the first day of July in every year, of one-half of the annual payment required to redeem the loan, in accordance with a general scale to be framed by the Minister from time to time and published in the *Gazette*, and such payments shall continue to be made until the whole loan with interest has been paid; and

(b) begin die aflostydperk van 'n besproeiingslening op die eerste dag van Januarie of die eerste dag van Julie, wat die Minister voorskryf, wat hoogstens drie jaar na die datum is waarop die werke ten opsigte waarvan die lening toegestaan was, volgens die Minister se oordeel voltooi behoort te wees.

(2) Die rente op 'n besproeiingslening word bereken teen die koers wat die Minister van Finansies van tyd tot tyd by kennisgewing in die *Staatskoerant* vasstel, en die rente teen die aldus vasgestelde koers is betaalbaar op enige lening of paaïement daarvan vanaf die datum waarop dit voorgeskiet of betaal word: Met dien verstande dat die bepalings van hierdie artikel nie geag word die Minister van Finansies te belet om die bepalings van sub-artikel (1) van artikel een van die „Finansiële Regelings Wet, 1917” (Wet No. 42 van 1917), ten opsigte van so 'n lening toe te pas nie.

(3) Rente wat tussen die datum van die eerste voorskot op 'n besproeiingslening en die datum ingevolge sub-artikel (2) vir die aanvang van die delgingstydperk voorgeskryf betaalbaar is, word by die bedrag van die lening gevoeg en maak vir doeleindes van delging, maar nie rente nie, deel daarvan uit.

(4) 'n Besproeiingslening kan te eniger tyd gedeeltelik of ten volle gedelg word deur betaling van 'n bedrag bo en behalwe die half-jaarlikse paaïemente, en indien enige saldo oorbly, word die halfjaarlikse paaïemente daarna dienoooreenkomstig verminder.

(5) Op versoek van die lener kan die delgingstydperk te eniger tyd verminder word, mits 'n ooreenstemmende verhoging in die halfjaarlikse paaïemente aangebring word.

Minister kan delgingsbepalings ten opsigte van besproeiingslenings in spesiale omstandighede wysig.

161. Ondanks die bepalings van artikel *honderd-en-sestig* kan die Minister wanneer spesiale omstandighede (soos tekort aan water, skade aan oeste, verslapping van markte of buitensporige koste tydens ontwikkeling) die halfjaarlikse terugbetaling van bedrae ingevolge bedoelde artikel ter delging van 'n besproeiingslening bemoeilik het, van tyd tot tyd op versoek van die skuldenaar daardie betalings oor 'n tydperk van hoogstens vyftien jaar verminder: Met dien verstande dat aan die einde van die tydperk ten opsigte waarvan sodanige vermindering van betalings toegestaan is, die gesamentlike bedrag van die vermindering, tesame met rente daarop, vir die doeleindes van delging by die bedrag van bedoelde lening gevoeg moet word en deel daarvan uitmaak en die periodieke betalings vereis tot delging van die lening binne die tydperk waarvoor dit toegestaan is, word dienoooreenkomstig verhoog totdat die lening ten volle afgelos is: Met dien verstande voorts dat rente nie op daardie gedeelte van die aldus by bedoelde lening gevoegde bedrag wat rente voorstel, betaalbaar is nie.

Subsidies op waterwerke.

162. (1) Behoudens die bepalings van sub-artikels (2) en (3), kan die Minister op aansoek uit gelde deur die Parlement vir die doel bewillig en op die woorwaardes wat hy na goeddunke oplê, aan enigiemand 'n subsidie toeken ten opsigte van die koste verbonde aan die aanbou van 'n waterwerk, hetsy daardie werk deur bedoelde persoon of ingevolge artikel *sewe-en-vyftig* deur die Minister gebou word.

(2) Tensy die totale koste van bedoelde waterwerk en die bedrag van die subsidie en van enige lening ingevolge hierdie Hoofstuk ten opsigte daarvan toegestaan te word afsonderlik in deur die Parlement goedgekeurde begrotings van uitgawes vermeld is—

(a) word geen subsidie ten opsigte van 'n waterwerk waarvan die totale koste volgens die Minister se oordeel waarskynlik dertigduisend pond sal oorskry, toegestaan nie;

(b) mag die bedrag van die subsidie aan 'n besproeiingsraad of plaaslike bestuur toegestaan te word, nie drie-en-dertig en 'n derde persent van die koste van die werk ten opsigte waarvan dit toegestaan word, oorskry nie;

(c) mag die bedrag van die subsidie wat aan enige persoon of liggaam, uitgesonderd 'n besproeiingsraad of plaaslike bestuur, toegestaan word, nie drie-en-dertig en 'n derde persent van die koste van die werk ten opsigte waarvan dit toegestaan word, of driehonderd pond, na gelang watter bedrag die kleinste is, oorskry nie: Met dien verstande dat indien 'n groep persone 'n gesamentlike waterwerk wil bou vir die besproeiing van grond wat aan hulle behoort, en die Minister van oordeel is dat hul doel gerieflik en doeltreffend bereik kan word sonder die instelling van 'n besproeiings-

- (b) the period of redemption of an irrigation loan shall begin from such first day of January or first day of July as the Minister may prescribe, being not later than three years from the date on which in the opinion of the Minister the works in respect of which the loan was granted ought to be completed.

(2) Interest on an irrigation loan shall be calculated at such rate as the Minister of Finance may fix from time to time by notification in the *Gazette* and the interest at the rate thus fixed shall be payable on any loan or instalment thereof from the date on which it is advanced or paid: Provided that nothing in this section contained shall be construed as preventing the Minister of Finance from applying the provisions of sub-section (1) of section *one* of the Financial Adjustments Act, 1917 (Act No. 42 of 1917), in respect of any such loan.

(3) Interest payable between the date of the first advance on an irrigation loan and the date prescribed under sub-section (2) for the commencement of the period of redemption shall be added to the amount of the loan, and form part of it for the purposes of redemption but not for interest.

(4) An irrigation loan may at any time be partially or entirely redeemed by payment of any sum in addition to the half-yearly payments and thereafter, if any balance be left, the half-yearly payments shall be reduced accordingly.

(5) The period of redemption may, at the request of the borrower, be reduced at any time, provided a corresponding increase be made in the half-yearly payments.

161. Notwithstanding the provisions of section *one hundred and sixty*, the Minister may, whenever special circumstances (such as failure of water supply, damage to crops, depression of markets or excessive costs during development) have made difficult the half-yearly repayment of sums under the said section to redeem an irrigation loan, from time to time reduce, at the request of the debtor, those payments over a period not exceeding fifteen years: Provided that, at the end of the period in respect of which such reduction of payments has been allowed, the aggregate amount of the reductions, together with interest thereon, shall be added to the amount of the said loan and form part of it for the purpose of redemption, and the periodical payments required to redeem the loan within the period for which it was granted shall be raised accordingly until the loan is entirely redeemed: Provided further that interest shall not be payable on that portion of the amount so added to the said loan which represents interest.

Minister may modify redemption provisions for irrigation loans in special circumstances.

162. (1) Subject to the provisions of sub-sections (2) and (3), the Minister may, on application, out of moneys provided by Parliament for the purpose, and on such conditions as he may deem fit to impose, grant to any person a subsidy towards the cost of constructing a water work, whether such work is constructed by such person or by the Minister in terms of section *fifty-seven*.

Subsidies on water works.

(2) Unless the total cost of the said water work and the amount of the subsidy and of any loan under this Chapter to be granted in respect thereof have been separately specified in estimates of expenditure approved by Parliament—

- (a) no subsidy shall be granted in respect of any water work the total cost of which in the opinion of the Minister, is likely to exceed thirty thousand pounds;
- (b) the amount of the subsidy to be granted to any irrigation board or local authority shall not exceed thirty-three and one-third per centum of the cost of the work in respect of which it is granted;
- (c) the amount of the subsidy to be granted to any person or body, other than an irrigation board or a local authority, shall not exceed thirty-three and one third per centum of the cost of the work in respect of which it is granted, or three hundred pounds, whichever amount is the less: Provided that if a group of persons desire to construct a joint water work for the irrigation of land belonging to them and the Minister is of opinion that their purpose may be conveniently and efficiently achieved without the establishment of an

distrik en die daarstelling van 'n besproeiingsraad om bedoelde werk uit te voer, daar behoudens die bepalings van paragraaf (a) aan bedoelde groep persone 'n subsidie van driehonderd pond ten opsigte van elk van daardie persone, maar in die geheel hoogstens drie-en-dertig en 'n derde persent van die koste van daardie werk, toegestaan kan word.

(3) 'n Subsidie word nie ingevolge hierdie artikel aan 'n plaaslike bestuur toegestaan nie, tensy die Administrateur van die provinsie waarin daardie plaaslike bestuur gestig is die toekenning van bedoelde subsidie aanbeveel het, en 'n Administrateur doen nie so 'n aanbeveling nie tensy hy oortuig is dat so 'n plaaslike bestuur om finansiële redes nie in staat sal wees om die waterwerk ten opsigte waarvan die subsidie nodig is, te bou nie tensy daardie subsidie aan bedoelde plaaslike bestuur toegestaan word.

(4) 'n Raad of ander liggaam wat kragtens 'n spesiale wet ingestel is en ingevolge daardie wet gemagtig en verplig is om bevoegdhede uit te oefen en pligte te verrig wat aan besproeiingsrade verleen en opgedra is of mag word, en om waterwerke aangewend vir die besproeiing van grond binne die regsgebied van bedoelde raad of liggaam te beheer en te onderhou, en om die water van daardie werke aan sodanige grond te distribueer, word by die toepassing van hierdie Hoofstuk geag 'n besproeiingsraad te wees, en die bepalings van paragrafe (a) en (b) van sub-artikel (8) en sub-artikels (9) en (10) van artikel drie-en-sestig en artikels drie-en-negentig en vyf-en-negentig is *mutatis mutandis* ten opsigte van so 'n raad of liggaam van toepassing asof so 'n raad of liggaam 'n besproeiingsraad was.

(5) Geen deel van 'n subsidie ingevolge hierdie artikel toegeken, mag aan 'n ander doel as die uitvoering van die waterwerk ten opsigte waarvan dit toegeken word, bestee word nie.

(6) Iemand aan wie 'n subsidie ingevolge hierdie artikel toegestaan is, word nie verplig om enige deel daarvan terug te betaal nie.

Toepassing van Wet op lenings en subsidies tevore toegestaan.

163. 'n Besproeiingslening deur die Goewerneur-generaal toegestaan en 'n besproeiingssubsidie deur die Minister toegestaan ingevolge enige wet voor die inwerkingtreding van hierdie Wet, word geag ingevolge hierdie Hoofstuk toegestaan te gewees het en die bepalings van hierdie Hoofstuk is op so 'n lening of subsidie van toepassing.

Minister kan regulasies uitvaardig betreffende besproeiingslenings en subsidies.

164. Die Minister kan regulasies uitvaardig betreffende—

- (a) die aansoekvorm wat gebruik moet word wanneer om 'n besproeiingslening of 'n subsidie aansoek gedoen word;
- (b) die vorm wat gebruik moet word by die waardering van eiendom wat as sekuriteit vir 'n besproeiingslening aangebied word;
- (c) die vorm en die aard van die planne, ramings en ander dokumente wat 'n aansoek om 'n besproeiingslening of 'n subsidie moet vergesel;
- (d) die wyse waarop 'n besproeiingsraad andersins as ingevolge hierdie Hoofstuk lenings kan aangaan;
