This is deemed necessary to ensure that continuous, timeous and accurate market information relating to cotton is made available for all role-players. Information gathered by Cotton South Africa from the records and returns will be freely distributed to the market place. Market information is deemed essential for all role-players in a deregulated market, in order for them to be able to make informed decisions. By the compulsory furnishing of monthly returns on an individual basis, market information for the whole of the country can be processed and disseminated to the market place.

The established of this statutory measure will not only enhance market access for all market participants but should also promote the efficiency of the marketing of cotton. Furthermore, proper market information will enhance the viability of the cotton industry and the agricultural sector at large. The measure will not be detrimental to the number of employment opportunities within the economy or fair labour practice.

This statutory measure will be administered by Cotton South Africa, a company incorporated under section 21 of the Companies Act, 1973 (Act No.61 of 1973). Cotton South Africa is appointed to implement, administer and enforce the intervention set out in the Schedule.

Market information is deemed essential for all role-players in a deregulated market, in order for them to be able to make informed decisions. By combining the compulsory registration with the furnishing of monthly returns on an individual basis, market information for the whole of the country can be processed and disseminated to the market place.

The established of this statutory measure will not only assist in enhancing market access for all market participants but should also assist in promoting the efficiency of the marketing of cotton. The viability of the cotton industry will thus be enhanced. The measure will not be detrimental to the number of employment opportunities within the economy or fair labour practice.

This statutory measure will be administered by Cotton South Africa, a company incorporated under section 21 of the Companies Act, 1973 (Act No.61 of 1973). Cotton South Africa is appointed to implement, administer and enforce the intervention set out in the Schedule.

## SCHEDULE

### **Definitions**

1. In this Schedule any word or expression to which a meaning has been assigned in the Act shall have that meaning and unless the context otherwise indicates –
  - “**cotton**” means cotton lint and seed cotton derived from the ball of the cotton plant (*Gossypium hirsutum*);
  - “**cotton lint**” means the fibre derived from the seed cotton after the seed cotton has been ginned;
  - “**Cotton South Africa**” means Cotton SA NPC a non-profit company registered in terms of the Companies Act, which operates under the name Cotton South Africa;

  - “**seed cotton**” means the lint and seed derived from the ball of the cotton plant (*Gossypium hirsutum*), before it has been ginned;
  - “**the Act**” means the Marketing of Agricultural Products Act, 1996 (Act No. 47 of 1996).

### **Purpose and aims of statutory measure and the relation thereof to objectives of the Act**

2. The purpose and aims of this statutory measure are to provide financial support for the following functions that the cotton industry has identified as essential and in the interest of the industry as a whole:
  - (a) Rendering of information services to all role-players;
  - (b) the promotion of cotton production and the demand;
  - (c) the co-ordination of research;
  - (d) the maintenance of quality standards and norms and the provision of training; and
  - (e) the facilitation of the development of the emerging cotton production sector.

The maintenance of macro industry information is regarded as critical for strategic planning by the cotton industry. Proper and accurate market information that is available on a continuous and timeous manner, will not only increase market access for all market participants, but will also promote the efficiency of the marketing of cotton.

The promotion of the production of cotton can make a significant contribution towards the level of household food security in South Africa, particularly in the more arid regions of the country where other summer crops have regularly failed. It is furthermore important that perceptions be changed in terms of crops more suited to those areas to feature more strongly.

Research is essential for the furtherance of the primary cotton industry's competitive position, taking into account the extremely competitive marketing environment in which cotton compete and the steady decline in the cotton fibre market over the past few years. Research is also important for cotton cultivation by commercial and small-scale farmers. Studies in connection with cultivar characteristics such as yield tendencies, adaptability and yield stability, make it possible for the cotton producer to make meaningful cultivar choices for specific conditions.

Quality standards, grading and classification as well as independent arbitration services for quality disputes have to be maintained in order to promote the efficiency of cotton marketing *per se*. This function is deemed a basic precondition for the orderly marketing of cotton. Therefore,

grading staff of co-operatives and processors of cotton also have to be trained on a continuous basis.

A portion of the funds collected by means of this levy will also be focused on small-scale farmers and the developing cotton industry.

The establishment of this statutory measure will not only assist in enhancing market access for all market participants but will also enhance the viability of the cotton industry. The establishment of this measure will in fact further all the objectives of the Act as stipulated in Section 2 thereof.

This statutory measure shall be administered by Cotton South Africa.

## GENERAL NOTICES ALGEMENE KENNISGEWINGS

### NOTICE 230 OF 2014

#### NATIONAL AGRICULTURAL MARKETING COUNCIL MARKETING OF AGRICULTURAL PRODUCTS ACT, 1996, AS AMENDED (ACT No. 47 OF 1996)

#### REQUEST FOR THE ESTABLISHMENT OF STATUTORY MEASURES RELATING TO LEVIES, REGISTRATION, AND RECORDS & RETURNS ON IMPORTED CHICKEN PRODUCTS IN TERMS OF THE MARKETING OF AGRICULTURAL PRODUCTS ACT

It is hereby made known that, in terms of section 10 of the Marketing of Agricultural Products Act, 1996 (Act No.47 of 1996) (MAP Act), that the Minister of Agriculture, Forestry and Fisheries has received a request from the Association of Meat Importers and Exporters (AMIE) for the establishment of statutory measures relating to levies, registration, the keeping of records and rendering of returns. The applicant for the proposed statutory measures is AMIE, an association founded in 1996, which was established due to a need by meat and poultry importers and exporters, for a mouthpiece to speak on their behalf and to look after the interests of its members.

AMIE proposed a statutory levy of 2c/kg (excluding VAT) on imported chicken products. The proposed levy on the different chicken products will be as follows:

Customs Tariff Classification	Product Description	Levy (excluding Vat)
0207.12.10	Mechanically Deboned Meat	2c/kg
0207.12.20	Not cut in pieces, frozen: Carcasses	2c/kg
0207.12.90	Not cut in pieces, frozen: Other	2c/kg
0207.14.10	Cuts and Offal, frozen: Boneless cuts	2c/kg
0207.14.20	Cuts and Offal, frozen: Offal	2c/kg
0207.14.90	Cuts and Offal, frozen: Bone-in	2c/kg

The estimated income from the proposed statutory levies is between R5.1 million (for 2014/15) and R5.9 million (for 2017/18) per year. The proposed statutory levies will finance the following functions, namely –

- Quality control & Consumer assurance;
- Liaison, including consumer education;
- Transformation in the industry;
- Research and development; and
- Administration

The MAP Act stipulates that a statutory levy may not exceed 5% of the price realised for a specific agricultural product at the first point of sale. The maximum of 5% must be based on a guideline price calculated as the average price at the first point of sale over a period not exceeding three years. For the proposed statutory levies, the guideline price is determined as follows:

Chicken products vary significantly in price, depending on the cut. The table below contains average prices per cut, at the first point of sale for the last three years.

<b>Chicken Cut</b>	<b>2011</b>	<b>2012</b>	<b>2013</b>
Whole birds	R6.97/kg	R8.33/kg	R14.38/kg
Carcasses	Unavailable	R5.27/kg	R4.93/kg
Mechanically Deboned Meat	R4.41/kg	R4.40/kg	R5.60/kg
Offal	R1.72 /kg	R3.37/kg	R10.37/kg
Boneless	R19.80/kg	R20.85/kg	R24.57/kg
Bone-In	R10.68/kg	R13.15/kg	R14.87/kg

The weighted average selling price at the first point of sale, for all chicken products was as follows:

	<b>2011</b>	<b>2012</b>	<b>2013</b>
Weighted average selling price for all chicken products	R10.64	R12.19	R13.59
Levy as percentage of selling price (levy 2c/kg)	0.19%	0.16%	0.15%

The purpose of the statutory measure relating to registration is to compel importers of chicken products to register with the levy administrator. AMIE considers appointing Red Meat Levy Administrator (Pty) Ltd, the administrator of the red meat and pork statutory levies, to administer the proposed statutory levies. The compulsory registration of these importers will ensure that accurate information is obtained and will also assist in the collection of the proposed statutory levies on imported chicken products.

The purpose of the statutory measure relating to records & returns is to compel importers of chicken products to render records and returns to the levy administrator. This is necessary to ensure that continuous, timeous and accurate information relating to imported chicken products is available to all role-players. Market information is deemed essential for all role-players in order for them to make informed decisions.

The National Agricultural Marketing Council (NAMC) took cognisance that the proposed implementation of statutory measures relating to levies, registration, the keeping of records and the rendering of returns in the poultry industry as requested by AMIE, is consistent with

the objectives of the MAP Act. The request is currently being investigated by the NAMC and recommendations in this regard will be made to the Minister in the near future.

**Directly affected groups in the poultry industry are kindly requested to submit any comments, regarding the proposed statutory measures, to the NAMC on or before 11 April 2014, to enable the Council to finalise its recommendation to the Minister in this regard.**

**NOTICE 236 OF 2014****INTERNATIONAL TRADE ADMINISTRATION COMMISSION OF SOUTH AFRICA****TERMINATION OF THE INVESTIGATION INTO THE ALLEGED DUMPING OF GRAPHITE ELECTRODES FOR USE IN FURNACES ORIGINATING IN OR IMPORTED FROM THE PEOPLE'S REPUBLIC OF CHINA (CHINA) AND INDIA**

The International Trade Administration Commission of South Africa (the Commission) initiated an investigation into the alleged dumping of graphite electrodes for use in furnaces originating in or imported from the People's Republic of China (China) and India, pursuant to Notice No. 1128 of 2013 in *Government Gazette* No. 37037.

The application was lodged by the GrafTech South Africa Pty Ltd, the only manufacturer of the subject product in the SACU. The Applicant alleged that the subject product was being dumped into the SACU market, causing material injury to the SACU industry.

The investigation was initiated after the Commission considered that there was *prima facie* evidence to show that the subject product was imported at dumped prices, causing material injury and that there was a causal link between dumped imports and material injury.

On 06 February 2014, a letter was received from the Applicant informing the Commission that it has decided to cease its operations and request that the current anti-dumping investigation on graphite electrodes for use in furnaces origination in or imported from China and India be terminated.

The Commission therefore decided that the investigation into the alleged dumping of graphite electrodes originating in or imported from China and India be terminated.
