Government Printing Works
REPUBLIC OF SOUTH AFRICA

HIGH ALERT: SCAM WARNING!!!

TO ALL SUPPLIERS AND SERVICE PROVIDERS OF THE GOVERNMENT PRINTING WORKS

It has come to the attention of the *GOVERNMENT PRINTING WORKS* that there are certain unscrupulous companies and individuals who are defrauding unsuspecting businesses disguised as representatives of the *Government Printing Works (GPW)*.

The scam involves the fraudsters using the letterhead of *GPW* to send out fake tender bids to companies and requests to supply equipment and goods.

Although the contact person's name on the letter may be of an existing official, the contact details on the letter are not the same as the *Government Printing Works*. When searching on the Internet for the address of the company that has sent the fake tender document, the address does not exist.

The banking details are in a private name and not company name. Government will never ask you to deposit any funds for any business transaction. *GPW* has alerted the relevant law enforcement authorities to investigate this scam to protect legitimate businesses as well as the name of the organisation.

Example of e-mails these fraudsters are using:

PROCUREMENT@GPW-GOV.ORG

Should you suspect that you are a victim of a scam, you must urgently contact the police and inform the *GPW*.

GPW has an official email with the domain as @gpw.gov.za

Government e-mails DO NOT have org in their e-mail addresses. All of these fraudsters also use the same or very similar telephone numbers. Although such number with an area code 012 looks like a landline, it is not fixed to any property.

GPW will never send you an e-mail asking you to supply equipment and goods without a purchase/order number. *GPW* does not procure goods for another level of Government. The organisation will not be liable for actions that result in companies or individuals being resultant victims of such a scam.

Government Printing Works gives businesses the opportunity to supply goods and services through RFQ / Tendering process. In order to be eligible to bid to provide goods and services, suppliers must be registered on the National Treasury's Central Supplier Database (CSD). To be registered, they must meet all current legislative requirements (e.g. have a valid tax clearance certificate and be in good standing with the South African Revenue Services - SARS).

The tender process is managed through the Supply Chain Management (SCM) system of the department. SCM is highly regulated to minimise the risk of fraud, and to meet objectives which include value for money, open and effective competition, equitability, accountability, fair dealing, transparency and an ethical approach. Relevant legislation, regulations, policies, guidelines and instructions can be found on the tender's website.

Fake Tenders

National Treasury's CSD has launched the Government Order Scam campaign to combat fraudulent requests for quotes (RFQs). Such fraudulent requests have resulted in innocent companies losing money. We work hard at preventing and fighting fraud, but criminal activity is always a risk.

How tender scams work

There are many types of tender scams. Here are some of the more frequent scenarios:

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to a company to invite it to urgently supply goods. Shortly after the company has submitted its quote, it receives notification that it has won the tender. The company delivers the goods to someone who poses as an official or at a fake site. The Department has no idea of this transaction made in its name. The company is then never paid and suffers a loss.

OR

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to Company A to invite it to urgently supply goods. Typically, the tender specification is so unique that only Company B (a fictitious company created by the fraudster) can supply the goods in question.

Shortly after Company A has submitted its quote it receives notification that it has won the tender. Company A orders the goods and pays a deposit to the fictitious Company B. Once Company B receives the money, it disappears. Company A's money is stolen in the process.

Protect yourself from being scammed

- If you are registered on the supplier databases and you receive a request to tender or quote that seems to be from a government department, contact the department to confirm that the request is legitimate. Do not use the contact details on the tender document as these might be fraudulent.
- Compare tender details with those that appear in the Tender Bulletin, available online at www.gpwonline.co.za
- Make sure you familiarise yourself with how government procures goods and services. Visit the tender website for more information on how to tender.
- If you are uncomfortable about the request received, consider visiting the government department and/or the place of delivery and/or the service provider from whom you will be sourcing the goods.
- In the unlikely event that you are asked for a deposit to make a bid, contact the SCM unit of the department in question to ask whether this is in fact correct.

Communiqué 01 of 2020

COMMUNIQUÉ REGARDING THE REGISTRATION OF PRIVATE EDUCATION AND TRAINING (SKILLS DEVELOPMENT) PROVIDERS OFFERING QUALIFICATIONS AND PART-QUALIFICATIONS ON THE OCCUPATIONAL QUALIFICATIONS SUB-FRAMEWORK

1. PURPOSE OF THE COMMUNIQUÉ

- 1.1 The purpose of this Communiqué is to communicate the latest position of the Department on the registration of private education and training providers and replaces *Joint Communiqué 1 of 2016: The Registration and Accreditation of Private Education and Training Providers Offering Qualifications and Part-Qualifications on the Occupational Qualifications Sub-Framework*, issued jointly by the Department of Higher Education and Training, South African Qualifications Authority (SAQA), Council on Higher Education (CHE), Umalusi and the Quality Council for Trades and Occupations (QCTO), in Government Notice No. 118 published in the Government Gazette No. 40613 of 10 February 2017, which directed the skills development providers (SDPs) offering qualifications or part-qualifications on the Occupational Qualifications Sub-Framework (OQSF) to apply for registration with the Department.
- 1.2 This Communiqué applies only to SDPs who are currently accredited in terms of the Skills Development Act, 1998 (Act No. 97 of 1998) (“the SDA”) to offer qualification or part-qualifications on the OQSF.

2. BRIEF BACKGROUND

Since the publication of the Joint Communiqué 1 of 2016, the Department has been confronted with various legislative challenges regarding the registration of SDPs, which had far-reaching legal and financial implications on the registration process. These challenges have been significant and in many

instances caused confusion, frustration and uncertainty within the skills development sector. Furthermore, there have been significant new legislative developments, which have profound legal implications and seek to bring about certainty on the issue of the registration of SDPs.

3. LEGAL AND LEGISLATIVE CONTEXT

- 3.1 Since the publication of Joint Communiqué 1 of 2016, the Department has been grappling with challenges regarding the enabling legislation deriving from section 29(3)(b) of the Constitution of the Republic of South Africa, 1996 (Act No. 108 of 1996) (“the Constitution”), in terms of which SDPs must be registered, in compliance with the latter section. This enabling legislation should, amongst other things, take into account the nature and business operations of SDPs and allow for the development of the concomitant regulations outlining a clear procedure and requirements for their registration.
- 3.2 Currently, the Skills Development Act, 1998, which is the principal Act that regulates SDPs does not require that they must be registered with the State as contemplated by section 29(3)(b) of the Constitution. However, in terms of section 3(3) which must be read with section 1 of the National Qualification Framework Amendment Act, 2019 (Act No. 12 of 2019) (“NQF Amendment Act”) published in Government Gazette No. 42646 of 19 August 2019 for general information, which will come into operation on the date yet to be determined by the President by proclamation in the Gazette, SDPs will be required to be registered with the Department and accredited by the relevant Quality Council, in order to provide education and training in the Republic of South Africa.
- 3.3 Section 1 of the NQF Amendment Act, defines a ‘skills development provider’ as *“a provider that is registered with the Department in terms of the Continuing Education and Training Act, and is accredited by the QC for Trades and Occupations to offer occupational qualifications.”*
- 3.4 Despite the legislative changes contemplated in the NQF Amendment Act, the Continuing Education and Training Act, 2006 (Act No. 16 of 2006) (“the CET Act) in its current form, does not make provision for the registration of SDPs.

This means that, for section 3(3) of the NQF Amendment Act to be effected, the CET Act must be amended.

- 3.5 Presently, there is however, nothing that prevents those SDPs who are accredited to offer qualifications or part-qualifications on the OQSF in terms of the SDA and who meet the prescribed requirements for registration from being registered with the Department, either as private colleges in terms of the CET Act or as private higher education institutions in terms of Higher Education Act.1997 (Act No. 101 of 1997).
- 3.6 As a result of the challenges and legislative developments outlined above and in an endeavour to bring about legal certainty on the issue of the registration of SDPs, the Department sought and obtained a legal opinion from the Office of Chief State Law Adviser. In its comprehensible legal opinion, the Chief State Law Adviser advised that the registration of SDPs may only be effected through legislation that provides for the requirements and procedure for such registration. Furthermore, that the SDA must be amended to require the registration of private SDPs and to provide for the requirements and procedure for their registration. To this end, the Department has already commenced with the process of amending the SDA in order to *inter alia*, address the issue of the registration of SDPs in keeping with the constitutional imperatives.
- 3.7 It is against this backdrop that the Department has decided to review its position on the Joint Communiqué 1 of 2016.

4. IMPLICATIONS OF COMMUNIQUÉ 01 OF 2020

The following are the implications of Communiqué 01 of 2020:

- 4.1 SDPs are no longer required to lodge applications for registration with Department as private colleges or private higher education institutions as contemplated in the Joint Communiqué 1 of 2016;
- 4.2 SDPs who are currently accredited by the Quality Council for Trades and Occupations (QCTO) or its delegated Quality Assurance Partners (QAPs) and registered as examination centres (where applicable) may continue to operate

- as before for as long as they still meet their accreditation requirements and/or examination centre registration requirements;
- 4.3 New SDPs must first obtain accreditation from the QCTO or its delegated QAPs and approach the Department for registration as examination centres (where applicable) in order to commence with their operations;
- 4.4 SDPs who want to become accredited assessment centres must apply directly to the QCTO for occupational qualifications or part-qualifications, trades or historically registered qualifications in terms of the QCTO Circular 1 of 2017 issued on 15 December 2017;
- 4.5 No SDP will be penalised or adversely affected in its operations as a result of having not lodged an application for registration as per the Joint Communiqué 1 of 2016; and
- 4.6 SDPs who want to offer qualifications or part-qualifications on the general and further education and training sub-framework or the higher education qualifications sub-framework, may, if they meet the prescribed requirements, approach the Department to be registered as a private college or private higher education institution in terms of the CET Act or Higher Education Act, 997 (Act No. 101 of 1997).
5. This Communiqué is issued by the Director-General of the Department of Higher Education and Training which revokes and replaces Joint Communiqué 1 of 2016 and shall come into operation immediately upon its publication.

2. Introduction

On 23 March 2018, the Authority published in the Government Gazette No. 41512 (Notice No. 147) the Regulations on the use of Television White Spaces ("the Regulations"). Regulation 16(1)(f) and 16(2) prescribe that all operations of TVWS based wireless networks will be controlled by qualified S-GLSD providers; while the Authority will monitor the operations of S-GLSD service providers through a R-GLSD.

Regulation 16(2) of the Regulations provides that the Authority, may designate entities to operate secondary GLSD after undergoing a technical assessment to ensure that they are capable to perform the functions as stipulated in regulation 16(3).

It is on this basis that the Authority seeks to establish the framework to Qualify entities or organisations wishing to operate Secondary Geo-Location Spectrum Databases ("the Framework"). This will be technical procedure for approving entities wishing to operate secondary GLSDs as contemplated in regulation 16(1) (e) of the TVWS Regulations.

3. Objective

The objective of the Framework is to describe the qualification process that the Authority intends to follow when assessing whether operators that wish to operate the Secondary Geolocation Spectrum Databases (S-GLSDs) can meet the set qualification criteria required to provide S-GLSD services in South Africa in compliant with the Regulations.

4. Aspects of the Qualification Framework

The Authority will conduct the qualification assessment in a phased approach covering key aspects of the Regulations. Failing to meet the specific requirements of a phase in each timeframe, will disqualify a S-GLSD provider from proceeding

to the subsequent phase. The key aspects and phases of the qualification assessment are outlined in the following sections.

4.1 Self-declaration

This is the initial application phase wherein organisations that have applied to become S-GLSD providers will undergo a process of due diligence. The applicant must provide documentary evidence in support of their applications that includes but not limited to the following:

- a. identification:
 - Name, address, identification number, telephone number and E-mail address of applicant. If the applicant is a South African citizen, a copy of the identity document shall be submitted to the Authority. If the applicant is a foreigner a copy of the passport as well as proof of status shall be submitted to the Authority.

- b. key personnel and governing structures of their respective organisations;
- c. their ability to establish, operate and maintain the S-GLSD system, including stating whether the S-GLSD will be hosted locally or abroad (i.e. Company Website, documentary proof of involvement in the field of ICT);
- d. Executive Summary of Business plan:
 - Fundamental assumptions for the business plan with financial forecasts for a minimum period of three years.
 - A market analysis of the services contemplated to be offered through the S-GLSD applied for, including forecast demand.
 - Description of products and services to be offered through the S_GLSD applied for.
 - Description of pricing strategy for products and services to be offered through the S-GLSD license applied for.
- e. compliance to the Broad-Based Black Economic Empowerment Amendment Act, 2013 (Act No. 46 of 2013) with 30% (thirty

- percent) equity ownership and a minimum level 4 compliance in terms of the Information and Communications Technology (ICT) sector code for black economic empowerment ("BEE") in terms of Section 9(1) of the Broad-Based Black Economic Empowerment ("BBBEE") Act 53 of 2003 as amended;
- f. their approach in handling sensitive information, including compliance to the Protection of Personal Information Act, 2013 (i.e. documentary proof showing compliance with at least one of the following: King IV Code of Good Governance on IT, ISO/IEC 27002, ISO/IEC 38500, COBIT¹ 5, or CGICTPF²) and;
 - g. their approach in ensuring acceptable level of service availability (i.e. at least a 99.5% of uptime at the end of each calendar month) and reliability (i.e. a plan for a failover solution) including plan(s) for data backup.

4.2 Qualification Materials

The Authority will furnish the applicants with the required material to support their implementation of the regulations. This is the development of the S-GLSD. The said material shall include but not limited to the following:

4.3 Simulated Tests

This phase entails the applicants under assessment to operate as if they were operating live; the Authority will repetitively perform tests, remotely over the Internet Protocol, using the R-GLSD interfaces, to ascertain if components of the respective S-GLSD comply with the regulations covering the following major aspects:

- a. implementation of the communication protocols, interfaces and storage;
- b. calculation engine implementation of the TVWS algorithm and;
- c. implementation of the S-GLSD security.
