HIGH ALERT: SCAM WARNING!!!

TO ALL SUPPLIERS AND SERVICE PROVIDERS OF THE GOVERNMENT PRINTING WORKS

It has come to the attention of the *GOVERNMENT PRINTING WORKS* that there are certain unscrupulous companies and individuals who are defrauding unsuspecting businesses disguised as representatives of the *Government Printing Works (GPW)*.

The scam involves the fraudsters using the letterhead of *GPW* to send out fake tender bids to companies and requests to supply equipment and goods.

Although the contact person's name on the letter may be of an existing official, the contact details on the letter are not the same as the *Government Printing Works*. When searching on the Internet for the address of the company that has sent the fake tender document, the address does not exist.

The banking details are in a private name and not company name. Government will never ask you to deposit any funds for any business transaction. *GPW* has alerted the relevant law enforcement authorities to investigate this scam to protect legitimate businesses as well as the name of the organisation.

Example of e-mails these fraudsters are using:

PROCUREMENT@GPW-GOV.ORG

Should you suspect that you are a victim of a scam, you must urgently contact the police and inform the *GPW*.

GPW has an official email with the domain as @gpw.gov.za

Government e-mails DO NOT have org in their e-mail addresses. All of these fraudsters also use the same or very similar telephone numbers. Although such number with an area code 012 looks like a landline, it is not fixed to any property.

GPW will never send you an e-mail asking you to supply equipment and goods without a purchase/order number. *GPW* does not procure goods for another level of Government. The organisation will not be liable for actions that result in companies or individuals being resultant victims of such a scam.

Government Printing Works gives businesses the opportunity to supply goods and services through RFQ / Tendering process. In order to be eligible to bid to provide goods and services, suppliers must be registered on the National Treasury's Central Supplier Database (CSD). To be registered, they must meet all current legislative requirements (e.g. have a valid tax clearance certificate and be in good standing with the South African Revenue Services - SARS).

The tender process is managed through the Supply Chain Management (SCM) system of the department. SCM is highly regulated to minimise the risk of fraud, and to meet objectives which include value for money, open and effective competition, equitability, accountability, fair dealing, transparency and an ethical approach. Relevant legislation, regulations, policies, guidelines and instructions can be found on the tender's website.

Fake Tenders

National Treasury's CSD has launched the Government Order Scam campaign to combat fraudulent requests for quotes (RFQs). Such fraudulent requests have resulted in innocent companies losing money. We work hard at preventing and fighting fraud, but criminal activity is always a risk.

How tender scams work

There are many types of tender scams. Here are some of the more frequent scenarios:

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to a company to invite it to urgently supply goods. Shortly after the company has submitted its quote, it receives notification that it has won the tender. The company delivers the goods to someone who poses as an official or at a fake site. The Department has no idea of this transaction made in its name. The company is then never paid and suffers a loss.

OR

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to Company A to invite it to urgently supply goods. Typically, the tender specification is so unique that only Company B (a fictitious company created by the fraudster) can supply the goods in question.

Shortly after Company A has submitted its quote it receives notification that it has won the tender. Company A orders the goods and pays a deposit to the fictitious Company B. Once Company B receives the money, it disappears. Company A's money is stolen in the process.

Protect yourself from being scammed

- If you are registered on the supplier databases and you receive a request to tender or quote that seems to be from a government department, contact the department to confirm that the request is legitimate. Do not use the contact details on the tender document as these might be fraudulent.
- Compare tender details with those that appear in the Tender Bulletin, available online at www.gpwonline.co.za
- Make sure you familiarise yourself with how government procures goods and services. Visit the tender website for more information on how to tender.
- If you are uncomfortable about the request received, consider visiting the government department and/or the place of delivery and/or the service provider from whom you will be sourcing the goods.
- In the unlikely event that you are asked for a deposit to make a bid, contact the SCM unit of the department in question to ask whether this is in fact correct.

These measures may include dividing the workforce into groups or staggering break-times to avoid the concentration of workers in common areas.

6. Symptom screening

 - (b) if the worker is already at work immediately –
 - (i) isolate the worker, provide the worker with a surgical mask and arrange for the worker to be transported to a public health facility in a manner that does not place other workers or members of the public at risk either to be self-isolated or to be referred for a medical examination or testing;
 - (ii) assess the risk of transmission, disinfect the area and the worker's workstation, undertake contact tracing and refer those workers who may

¹⁵ Clinical management of suspected or confirmed COVID-19 disease – see the link in Annexure A.

- (4) If a worker has been diagnosed with COVID-19 and isolated in accordance with the National Department of Health Guidelines,¹⁸ an employer may only allow a worker to return to work –
- (a) without requiring viral testing if the worker has completed the mandatory 10 days of isolation either from the onset of symptoms –
 - (i) in mild cases of infection (not requiring hospitalisation for COVID-19); or
 - (ii) in moderate to severe cases of infection (requiring supplemental oxygen or hospitalisation) from the date of achieving clinical stability or earlier if the worker has undergone a medical evaluation confirming fitness to work;

¹⁸ *Clinical management of suspected or confirmed COVID-19 disease* – see the link in Annexure A.

- (c) if the employer closely monitors the worker for symptoms on return to work;
and
 - (d) if the worker, on return to work, wears a surgical mask¹⁹ for 21 days from the date of diagnosis.
- (5) If a worker has been in contact in the workplace with another worker who has been diagnosed with COVID-19, the employer must assess that worker's exposure in accordance with the Department of Health's Guidelines²⁰ to ascertain whether the exposure carries a high or low risk of transmission between the workers.
- (6) If there is a low-risk exposure, the employer –
- (a) may permit the worker to continue working using a cloth mask complying with standard precautions; and
 - (b) must monitor the worker's symptoms for 10 days from the first contact.
- (7) If there is a high-risk exposure –
- (a) a health worker must remain in quarantine for 7 days or with the agreement of the worker, 5 days;
 - (b) all other workers must remain in quarantine for 10 days; and
 - (c) the employer of that worker must place the worker on sick leave in accordance with sub-direction (3)(b)(iii) for that period;

¹⁹ A surgical mask is Class A medical device (3-ply mask) categorised by the South African Health Products Regulatory Authority. Surgical masks must be fluid-resistant, disposable, and loose-fitting devices covering the mouth, nose and chin that create a physical barrier between the mouth and nose of the wearer and the immediate environment. The surgical mask must protect the wearer's nose and mouth from contact with droplets, splashes and sprays that may contain germs and filter out large particles in the air. Surgical masks may also protect others by reducing exposure to the saliva and respiratory secretions of the mask wearer.

²⁰ The *Guidelines for symptom monitoring and management of workers for CoV-2 infection* and the *Guideline: Clinical management of suspected or confirmed COVID-19 disease* – see the links in Annexure A.

- (d) if the worker remains asymptomatic, no further testing is required prior to return to work, except in respect of health workers returning to work in less than 10 days.
- (8) Sub-direction (3) does not apply to workers who present with symptoms commonly between one to three days contemplated in sub-direction (1) as a result of a COVID-19 vaccination.
- (9) Should an employee suffer side effects as a result of a COVID-19 vaccination and is unable to attend work following vaccination, the employer must in accordance with section 22 of the BCEA place its employee on paid sick leave. - (a) a hand sanitiser must be one that has at least 70% alcohol content and is in accordance with the recommendations of the Department of Health²¹;
- (b) a surface disinfectant must be in accordance with the recommendations of the Department of Health²².
- (2) Every employer must, free of charge, ensure that –
- (a) there are sufficient quantities of hand sanitiser based on the number of workers or other persons who access the workplace at the entrance of, and in, the workplace which the workers or other persons are required to use; and

²¹ see paragraph 6 of the National Department of Health: *Practical Manual for Implementation of the National Infection Prevention and Control Strategic Framework, March 2020 (ppll-20)* – see the link in Annexure A.

²² National Institute for Occupational Health: *Cleaning and Decontamination of Workplaces in the Context of COVID-19 (10 June 2020)* – see Annexure A.

- (b) every employee who works away from the workplace, other than at home, must be provided with an adequate supply of hand sanitiser.
- (3) If a worker interacts with the public, the employer must provide the worker with sufficient supplies of hand sanitiser at that worker's workstation for both the worker and the person with whom the worker is interacting.
- (4) Every employer must take measures to ensure that –
- (a) all work surfaces and equipment are disinfected before work begins, regularly during the working period and after work ends;
 - (b) all areas such as lavatories, common areas, door handles, shared electronic equipment are regularly cleaned and disinfected; and
 - (c) disable biometric systems or make them COVID-19-proof.

 - (d) the workers interacting with the public are instructed to sanitize their hands between each interaction with a member of the public; and
 - (e) surfaces that workers and members of the public come into contact with are routinely cleaned and disinfected.

8. Cloth masks

- (1) The main benefit of everyone wearing a cloth mask is to reduce the amount of virus containing droplets being transmitted by those with the infection and transmitted to others and to surfaces that others may touch. Since some infected persons may not have symptoms or may not know they are infected, the

Department of Health requires that all persons wear cloth masks when in a public place.

- (2) For the reasons underlying the Department of Health's requirement, every employer must –
 - (a) provide each of its employees, free of charge, with a minimum of two cloth masks, which comply with the Recommended Guidelines Fabric Face Masks,²³ for the employee to wear while at work and while commuting to and from work; and
 - (b) require any other worker to wear masks in the workplace.
- (3) The number and replaceability of cloth masks that must be provided to an employee or required of other workers must be determined in accordance with any sectoral guideline and in the light of the employee or worker's conditions of work, in particular, where these may result in the mask becoming wet or soiled.
- (4) Every employer must ensure that workers are informed, trained, instructed and supervised as to the correct use of cloth masks.
- (5) The general requirement for workers to wear masks does not derogate from the fact that, where a risk assessment indicates that specific personal protective equipment is required, those categories of workers must be provided with the accredited personal protective equipment in accordance with Department of Health guidelines.

9. Measures in respect of workplaces to which public has access

- (1) The principal purpose of the measures contained in the following clause is to protect workers from being exposed to the virus through their interaction with the public and to protect members of the public from being exposed to virus through their interaction with workers or other persons present in such a workplace.

ANNEXURE C

GUIDELINES IF AN EMPLOYER MAKES VACCINATION MANDATORY

1. These guidelines are intended to guide employers, employer organisations, employees, trade unions, conciliators, arbitrators and the courts in determining the fairness of a mandatory vaccination policy and its implementation
2. These guidelines deal with the key aspects of a policy requiring mandatory vaccination in the workplace. The guidelines are stated generally and departures from them may be justified in proper circumstances. For example the size or the nature of the workplace may warrant a different approach.
3. The LRA emphasises the primacy of collective agreements. These guidelines are not intended as a substitute for collective agreements or agreed procedures between employers, their employer organisations and trade unions.
4. The key principle of these guidelines is that employers and employees should treat each other with mutual respect. A premium is placed on public health imperatives, the constitutional rights of employees and the efficient operation of the employer's business.
5. Subject to any applicable collective agreement, a plan contemplated in direction 3 that requires all employees identified in terms of that direction to be vaccinated in accordance with the national COVID-19 vaccination roll out plan should provide the following:
 - (a) Every employee identified by the employer in terms of section 3(1)(a)(ii) should be notified of-
 - (i) the obligation to be vaccinated as and when a vaccine becomes available for that employee;

- (ii) the right of an employee to refuse to be vaccinated on constitutional²⁹ or medical grounds;³⁰
 - (iii) the opportunity for the employee, at the employee's request, to consult a health and safety representative or a worker representative or trade union official;
- (b) The employer should provide, in addition to the obligations contained in direction 4 in respect of COVID-19 vaccinations and, if reasonably practicable, transport to and from the vaccination site allocated in terms of the Electronic Vaccine Data System Registration Portal.
- (c) Should an employee suffer side effects as a result of a COVID-19 vaccination, the employer should give the employee paid time off to recover if the employee is no longer entitled to paid sick leave in terms of the BCEA or any applicable collective agreement or lodge a claim for compensation in terms of the Compensation for Occupational Injuries and Diseases Act, 130 of 1993.
- (2) If an employee refuses to be vaccinated on any constitutional or medical ground, the employer should-
- (a) counsel the employee and, if requested, allow the employee to seek guidance from a health and safety representative, worker representative or trade union official;
 - (b) refer for further medical evaluation should there be a medical contraindication for vaccination;

²⁹ The constitutional grounds are the right to bodily integrity in section 12(2) and the right to freedom of religion, belief and opinion in section 13 of the Constitution.

³⁰ Medical grounds for the contra-indication of vaccination: an immediate allergic reaction of any severity to a previous dose or a known (diagnosed) allergy to a component of the COVID-19 vaccine. See also <https://www.nicd.ac.za/covid-19-vaccine-faq/>

- (c) if necessary, take steps to reasonably accommodate the employee in a position that does not require the employee to be vaccinated;
- (3) For the purposes of these guidelines, reasonable accommodation means any modification or adjustment to a job or to the working environment that will allow an employee who fails or refuses to be vaccinated to remain in employment and incorporates the relevant portions of the Code of Good Practice: Employment of People with Disabilities published in terms of the Employment Equity Act, 1999 (Act No.97 of 1999). This might include an adjustment that permits the employee to work offsite or at home or in isolation within the workplace such as an office or a warehouse or working outside of ordinary working hours. In instances of limited contact with others in the workplace, it might include a requirement that the employee wears an N95 mask
