the Mulobezi Air Strip on a bearing of 244 degrees for a distance of approximately 1,375 meters to Saluzubuho river, thence upstream along saluzubuho river to its confluence with Mulobezi river. thence upstream along mulobezi river to a point T on the left bank of the Mulobezi river, the point of streaming.

The above described area, approximately 310 heactares in extent, is shown bordered red upon a plan deposited in the office of the National Heritage Conservation Commission signed by the Surveyor-General and dated 19th November, 2007

The Mulobezi Open Air Railway Museum is an historic site of industrial revolution in Zambia. It has outstanding rolling stock among the first to reach the African continent and along with the Rail Museum in Livingstone, Mulobezi Site and Railway line give a complete history of the construction of the railways to the commercial and industrial development of Zambia.

The site gives a historic perspective in the exploitation of one of Zambia's rich natural resources (Zambezi Teak - *Bailiaea Plurijuga*).
