Notes:

1. This table provides guidance on how to calculate contributions for employees paid monthly at intervals of K20,000.00 for purpose of convenience only. Often the amount of employee's total pensionable earnings on which contributions are calculated will be a figure within the interval. The amounts of the employee's and employer's share respectively, should be calculated as five percent of the employee's total pensionable earnings.

2. Earnings and contribution amounts should not be rounded off to the nearest Kwacha before applying the percentage.

Notes:

1. This table provides guidance on how to calculate contributions for employees paid fortnightly at intervals of K20,000.00 for purposes of convenience only. Often the amount of employee's total pensionable earnings on which contributions are calculated will be a figure within the interval. The amounts of the employee's and employer's share respectively, should be calculated as five percent of the employee's total pensionable earnings.

2. Earnings and contribution amounts should not to be rounded off to the nearest Kwacha before applying the percentage.
